Investment Objective, Investment Policy, Investment Approach and Benchmark Index

Investment Objective

Investment Policy

The Company's investment objective is to generate long-term capital growth for shareholders through a diverse portfolio of companies providing environmental solutions.

The Company invests globally in companies which have a significant focus on environmental solutions. Specifically, the Company looks to invest across three key areas: infrastructure, resource efficiency and demographics.

The Company's portfolio has a bias towards small and medium capitalisation companies. It invests primarily in securities which are quoted, listed or traded on a recognised exchange. However, up to 5 per cent. of the Company's Total Assets (at the time of such investment) may be invested in unlisted securities.

The Investment Adviser selects each stock on its individual merits as an investment rather than replicating the relevant company's weighting within the Company's benchmark index. The Company's investment portfolio is therefore unlikely to represent the constituents of its benchmark index, but instead is intended to offer a well diversified investment strategy focused on maximising returns from the prevailing economic background.

The Investment Adviser may enter into contracts for difference in order to gain both long and short exposure for the Company to indices, sectors, baskets of individual securities for both investment purposes and for hedging or efficient portfolio management purposes. The ability to maintain a portfolio of both long and short positions provides the flexibility to hedge against periods of falling markets, to reduce the risk of absolute loss at portfolio level and to reduce the volatility of portfolio returns. The Investment Adviser may also invest in single stock, sector and equity index futures and options.

Risk is also mitigated by investing mainly in quoted companies on registered exchanges, ensuring full regulatory compliance for all underlying quoted investments. There are no specific stock and sector size limitations within the portfolio, but the Investment Adviser is expected to provide sufficient stock, sector and geographic diversification to ensure an appropriate trade-off between risk and return within the portfolio. In order to ensure compliance with this objective there is a two tier monitoring system. First, the Investment Adviser's portfolio is assessed monthly by the Jupiter Asset Management Limited Performance Committee, which is headed by the Chief Executive of Jupiter Asset Management Limited. Secondly, the Board is provided with a detailed analysis of stock, sector and geographic exposures at the Company's regular Board meetings.

Any material change in the investment policy of the Company described above may only be made with the approval of Shareholders by an ordinary resolution.

Approach to investment in environmental solutions

Jupiter Asset Management Limited, the Investment Adviser, has been managing environmental solutions funds for close to 30 years. Over this time it has developed a leading knowledge of environmental investing across a range of products.

In the years since the launch of Jupiter's first green fund in 1988, environmental issues have become a major global concern. There is now broad acceptance that problems such as energy security, climate change, freshwater scarcity, local air, soil and water pollution are simply not going to disappear without concerted action to tackle them on a global scale.

It is Jupiter's view that environmental solutions businesses will have deep, long-term structural impact across three key areas – infrastructure, resource efficiency and demographics. We believe that these categories communicate the link between environmental and economic issues. They also reflect Jupiter's belief that investment in environmental solutions businesses is an investment in long-term global structural growth.

Infrastructure There has been a marked increase in global infrastructure spending in recent years as emerging market economies look to support rapid growth and mature economies seek to modernise. Patterns in both emerging and developed markets have trended towards infrastructure of lower environmental impact (i.e. less pollution, more alternative energy sources etc.) in recognition of its longer-term economic benefits. This is creating opportunities for businesses involved in renewable energy generation, smart electrical grids, clean and wastewater systems, engineering consultants, transport infrastructure and communication networks.

Resource efficiency Increased global demand for natural resources has stimulated significant investment in resource efficiency (i.e. lower impact methods of using existing resources such as energy, water and land, as well as resource recycling). This is presenting opportunities for businesses involved in energy and water efficiency, wastewater recycling, air pollution technology, waste recycling (from residential to industrial materials) and sustainable agriculture and land management.

Investment Objective, Investment Policy, Investment Approach and Benchmark Index continued

Demographics Rising populations and changing demographic patterns around the world create unique challenges when it comes to environmental and economic sustainability. Ageing populations in the West are putting pressure on healthcare, for example, while a growing global population is affecting agriculture and food production. These challenges have created opportunities for businesses that are providing sustainable, low impact solutions in sustainable consumption, public transport, health, agriculture and education.

Jupiter continues to use a stock-focused investment approach. Taking a long-term bottom-up approach to investment and every stock within the portfolio is there on its own fundamental merits. These are companies with strong management teams, sound balance sheets and defendable market positions that convert a high proportion of profit into cash. While the Company is global in scope, specific geographical exposures are a consequence of stock picking process rather than targeted asset allocation.

Jupiter Green Investment Trust focuses on companies which respond to environmental challenges by developing a product or service which provides environmental or social solutions. Environmental investment opportunities now exist over a wide cross-section of the global economy. This provides a deep investment universe that allows Jupiter to create diversified portfolios underpinned by a variety of economic drivers.

Charlie Thomas is Head of Environmental and Sustainability Investment Strategy at Jupiter and has been managing the Company since launch. He works closely with Fund Manager Abbie Llewellyn-Waters who also runs funds within the wider global environmental strategy at Jupiter and deputises for the management of the Jupiter Green Investment Trust.

The environmental approval of each individual stock continues to be undertaken by the dedicated team of analysts who ensure that each company meets our high environmental standards prior to investment. The team is also supported by the Jupiter Governance Research Team, which is headed by Ashish Ray.

Benchmark Index

MSCI World Small Cap Net Total Return Index (Bloomberg Indication Code: NCUDWI)

The Company does not seek to replicate the performance of the benchmark, the MSCI World Small Cap Net Total Return Index. There is likely to be significant variation in the Company's performance and in the constituents of its investment portfolio relative to those of its benchmark. Nevertheless, the Board considers the benchmark to be the most appropriate measure of the Company's performance.

Strategic Report continued

Chairman's Statement

It is with pleasure that I present the Annual Report for the Jupiter Green Investment Trust, covering the year to 31 March 2017.

This was a year in which global stock markets moved significantly higher amid extraordinary political change. At the start of the period, few had fully gauged the level of disquiet among electorates in the West and the potential for populist politicians to challenge the establishment and, most worryingly, bring the work of scientists into question. After the shock "Brexit" result during the UK's EU referendum and election of Donald Trump as President of the United States the political complexion had shifted from one of relative accord, albeit far from perfect, to division and fragmentation.

The unpredictable backdrop had a mixed impact on stock and bond markets. Most notably, Donald Trump's election victory was seen as bullish for stocks due to his spending and tax promises, and the S&P500 Index reached new highs in the weeks following the result. However, the thwarted attempt to repeal and replace "Obamacare" led the market to question his ability to bring his spending and tax plans into effect.

Politics was not the only factor driving markets during the year. The "reflation trade" which lent support to commodity and financial stocks, while pushing up inflation expectations and interest rates, was fairly established by the time of the US election. This trade had been based on a broad shift towards fiscal expansion by governments in many parts of the world (including China, Japan and Europe), while positive momentum in the US economy led to a 0.25 per cent interest rate rise in the US in December 2016 and a generally more hawkish tone from the Federal Reserve.

During the twelve months to 31 March 2017 the diluted Net Asset Value of the Company's Ordinary shares (being the Net Asset Value that would apply to the Ordinary shares in the event that all Ordinary shareholders exercised their annual subscription rights) increased by 20.3 per cent. This compares with an increase in the Company's benchmark index, the MSCI World Small Cap Net Total Return Index of 35.2 per cent and an increase in the middle market price of the Company's shares of 32.4 per cent during the same period.

Since the financial year end to 12 June 2017 the total return on the diluted net asset value per share of your Company has increased by 6.7 per cent., which compares with a total return of 2.7 per cent. from the benchmark Index during the same period. The market price of your Company's shares rose by 3.3 per cent.

I recommend the Investment Adviser's review in which the Fund Manager, Charlie Thomas highlights the impact the shift in the political backdrop has had on the Company and the uncertainties it has raised in regards to current and future environmental policy.

Dividend

It is not the Company's investment policy to pay dividends. However, as was the case last year, in order to retain its status as an investment trust under Section 1158 of the Corporation Tax Act 2010 the Company is not permitted to retain more than 15 per cent. of eligible investment income arising during any given financial year. Accordingly a resolution to declare a final dividend of 1.20p per share (2016: 0.65p) will be proposed at the Company's Annual General Meeting ('AGM') on 5 September 2017. Subject to shareholder approval, the final dividend will be paid on 6 October 2017 to those shareholders on the Register of Members on 15 September 2017.

Share issues

Shareholders were given the opportunity to subscribe for new Ordinary shares on 1 April 2017 on the basis of one new Ordinary share for

every ten held. The subscription price was 150.79p. Subscriptions were received from shareholders resulting in the issue of 554,321 Ordinary shares from Treasury.

Share Buyback and Discount Management

The Board implements a discount and premium policy under which it will use share buy backs and new issues of shares with the intention of ensuring that, in normal market conditions, the market price of the Company's shares will track their underlying Net Asset Value. The Board believes that this commitment to the active removal of discount and premium risk will provide materially improved liquidity for both buyers and sellers of the Company's shares.

Shareholders should note there can be no guarantee that any discount control mechanism implemented by the Board will necessarily have its desired effect. The making and timing of share buy backs are subject to a number of legal and regulatory regulations and, subject to these, will remain at the discretion of the Board.

Annual General Meeting

The Company's AGM will be held on Tuesday 5 September 2017 at 11:45 a.m. at the offices of Jupiter Asset Management Limited, The Zig Zag Building, 70 Victoria Street, London SW1E 6SQ. Notice of the AGM, containing full details of the business to be conducted at the meeting, is set out on page 48 of this report. Your attention is also drawn to the Report of the Directors on pages 19 and 20 where various Resolutions relating to special business are explained.

In addition to the formal business, the Fund Manager will provide a short presentation to shareholders on the performance of the Company over the past year as well as an outlook for the future. The Board would welcome your attendance at the AGM as it provides shareholders with an opportunity to ask questions of the Board and Investment Adviser.

Outlook

Last year the world was celebrating what had been achieved in Paris and through much of the year, we watched in wonder as the Paris Accord was ratified far earlier than many had expected. Our fears that the Trump administration would withdraw from the Paris Accord came to realisation in early June. The White House stated America will follow the lengthy exit process outlined in the deal, meaning it will remain in the agreement (at least formally) for another three-and-a-half years - taking us right up to the next presidential election in November 2020. However, it is worth noting that many of the Paris Accord's key stakeholders remain steadfastly committed to seeing it through - not so much for political reasons but for the hard fact that issues like pollution and environmental degradation are already having a profound impact on many communities around the world. It therefore seems likely that demand for environmental solutions will remain strong despite the political backdrop in the US, even if this demand is hindered somewhat in the short term. Additionally, advances in technology are leading to lower costs, which are disrupting markets for mainstream counterparts. Notwithstanding current political uncertainty, this process is likely to remain supportive of the long-term structural changes in the global economy to which the Company is intimately exposed.

Michael Naylor Chairman 30 June 2017

Strategic Report continued

Investment Adviser's Review

Performance Review

For the twelve months ended 31 March 2017, the total return for the net assets of the Company, adjusted for share cancellations, increased by 22.2 per cent.* compared to an increase of 35.2 per cent.* for the Company's benchmark, the MSCI World Small Cap Net Total Return Index and an increase of 28.4 per cent.* for the FTSE ET100 Index (Total Return).**

Market review

In terms of political history, the year under review was certainly absorbing. The UK's EU referendum in June 2016 produced a shock "Brexit" result, with the voting public spurred on by a highly-vocal, yet marginal, political party in UKIP. This result alone was a strong signal of the populism that had started to challenge the western political establishment. Yet it was soon eclipsed by the election of property tycoon and television personality Donald Trump as US president. His campaign was built on a promise to make America great again (a slogan borrowed from President Ronald Reagan's 1980 election campaign), and was rich in anti-establishment and protectionist rhetoric, as well as promises of tax cuts and fiscal munificence.

Global markets panicked after the Brexit result, but were soon calmed by stimulus measures from the Bank of England and robust UK economic data in the months that followed. Sterling remained relatively depressed, however, due to the hard-line stance of the UK government as it triggered "Article 50" and set off the two-year negotiation period. Trump's victory, on the other hand, provided a significant boost to risk appetite in markets. His spending agenda, which has the potential to spur growth and inflation, lifted stock prices in the financials, industrials and resources sectors at the expense of some high income "bond proxy" shares. In the months after the election, the US stock market reached new highs and market volatility generally abated.

The period was less compelling from an environmental policy standpoint. Experts of all types have been vilified during the rise of populism and Trump has famously labelled anthropomorphic climate change a "hoax". In his first months in office he signed an executive order to repeal Obama's Clean Power Plan and has appointed Scott Pruitt as the head of the Environmental Protection Agency (EPA) – a deeply worrying move given Pruitt had previously attempted to sue the EPA on behalf of the coal industry.

Company review

Looking at the headline performance figure, it was a good year for the Company. Buoyant trading among holdings in the industrial sector and businesses expected to benefit from greater infrastructure spending provided a boost to performance. Relative to the broader market, however, it was tougher going. Not only was the political backdrop less than favourable to the environmentally-focused Company, the strength of stocks from the financials and resources sectors, which we obviously avoid, made the Company's strong absolute return look substandard, although this is far from a like-for-like comparison. Meanwhile, gains made by Tesla impeded the Company's performance against the environmental-solutions focused FTSE ET100 Index (Total Return).** Tesla is a large index constituent which is not held by the Company, in part due to its high valuation and concerns about its business model.

A number of key holdings benefited from the "Trump-effect". These included Republic Services (waste and energy) and A. O. Smith (water

heaters and boilers) both of which were supported by the prospect of higher industrial activity in the US. The latter, which is expanding internationally, also benefitted from robust sales growth in China. Casella Waste, another beneficiary of this effect, had an excellent year. Its share price more than doubled as the business executed well on its strategy of seeking to boost returns on its landfill sites, while lowering debt and costs.

Other highlights included Xylem, due to improved demand for its water technologies, and smart meter specialist Itron. The Company's exposure to Japan added good value, with NSK (bearings), Azbil (automation products) and Daiseki (industrial waste and recycling) each making a solid contribution to performance.

The conditions proved less amenable for US solar stocks, First Solar and SunPower. These companies had already come under pressure after the extension of US solar investment tax credits in late 2015. Paradoxically, this policy change led to some overcapacity in the sector as project planning became less urgent and spending was delayed. Trump's election proved a further headwind, although it appears unlikely he will look to roll back the current tax credit programme. We believe the adjustment in valuations has been more than sufficient for prevailing risks. It is worth noting that the wind sector has not suffered in the same way and Vestas Wind Systems, a core holding in the Company, performed robustly and continued to take on significant new orders. Elsewhere, it was a tough year for Stericycle, the specialist medical waste company, whose earnings suffered due to a challenging pricing environment.

In terms of transactions, we established new positions in Horiba, a Japanese company that makes precisions instruments for environmental monitoring, and Dong Energy, a Danish energy business which has transformed itself into a world leader in offshore wind power. We took profits in Cranswick, a long standing holding that had done very well for the Company.

Outlook

There is little doubt these are challenging times when it comes to the political backdrop for environment investing and we will continue to watch the Trump administration's climate policies closely. His pledge to "make America great again" seems to involve an attempt to boost the US coal (and wider fossil fuels) industry. However potential benefits of his policies to the coal sector may prove particularly short-lived given how uneconomic this industry has become in the era of cheap gas and disruptive renewable energy. It is worth highlighting that his federal policies may not be matched at the state level where some 29 states have legal renewable portfolio standards, while a further eight states have voluntary systems in place. So long as the wind power tax credit scheme remains in place, onshore wind power in the US will remain a commercially attractive energy choice, alongside gas.

At the time of writing the implications for the Paris climate accord, which was hastily ratified only a few weeks before the election, were unclear. To pull out now could potentially come at a high economic and political, as well as environmental, costs for the US. The accord's other stakeholders are standing firm in their resolve and the US could be left behind in the technological revolution happening in the areas of renewable energy and energy efficiency. Time will tell whether the economics of this technological revolution will give the President pause for thought when it comes to the Paris Accord. Moreover, in his first

^{*}Source: Jupiter Asset Management Limited.

^{**}The FTSE ET100 index measures the performance of the largest 100 companies globally involved in the development and deployment of environmental technologies. The index is included to show the performance leading environmentally-focused stocks during the period under review.

Strategic Report continued

Investment Adviser's Review continued

100 days in office, the President has learned a hard lesson about the limitations of his position and there is growing scepticism about other key aspect of his policy agenda, including his spending and tax plans. As investors, we have to heed this lesson too and be careful not to get carried away with overly optimistic or pessimistic prognoses about Trump's potential economic impact.

Despite the uncertainties presented by the new US administration, we believe the investment case for renewables remains unblemished and the recent operational performance in the US, in the likes of Vestas, is testament to that. This is one sector that has long been subject to the influence of the prevailing political backdrop and as investors we have had to remain cognisant of the potential for changes in support due to shifting regimes. For this reason, we have been selective when investing in renewables. We typically focus on industry leaders (e.g. Vestas Wind Systems, Dong Energy and First Solar) and businesses in part of the supply chain that offer relative immunity to supply and demand changes. Moreover, we tend to assign a relatively modest portion of the portfolio to this area and consider it one of a broad range of sustainable solutions themes that we invest in (others include energy efficiency, sustainable infrastructure, industrial recycling, and organic and high welfare food).

Overall, while the political noise coming out of the US may be unfavourable and may create some headwinds, this must be viewed in a global context where we continue to see growing opportunities, most notably in Europe and Asia where the political and economic imperatives for addressing environmental issues are increasingly apparent. We believe our longer-term investment thesis remains intact and that the structured push towards a more sustainable global economy is continuing apace.

Charlie Thomas

Horiba (Resource Efficiency)

United Natural Foods (Demographics)

Wabtec provides products and services to freight and passenger rail customers around the world to help them increase their safety, efficiency and productivity.

A. O. Smith is a large American manufacturer and supplier of water heaters. Applying innovative technology it develops energy-efficient water heating solutions.

Vestas Wind Systems develops, manufactures, and markets wind turbines that generate electricity. The Company also installs the turbines and offers follow-up and maintenance services of the installations. Vestas produces the wind turbines and its components through subsidiaries and associated companies in many countries, and operates a worldwide sales and service network.

Emcor Group provides mechanical and electrical construction and facilities services around the world. The Company specialises in the design, installation, integration, and start-up of distribution systems for electrical power, lighting systems, low-voltage systems such as fire and security alarms, voice and data communications systems, ventilation systems, and plumbing and piping systems.

Cranswick is a producer of high-welfare pork products, including free range and organic sausages. The Company should continue to benefit from increased consumer demand for high quality and organic foods.

LKQ is one of the largest US providers of recycled parts for light vehicles and aftermarket collision replacement products. The Company's services help improve recycling rates of automobiles at their end-of-life.

Tomra Systems is a Norway-based Company providing advanced and cost-effective systems for recovering packaging and other used material for recycling globally.

Valmont Industries manufactures a wide range of infrastructure and irrigation systems and structures, helping to deliver energy and water efficiencies.

Xylem is a designer, manufacturer, equipment and service provider for water and wastewater applications addressing the full-cycle of water from collection, distribution, and use to the return of water to the environment. The Company's products include water and wastewater pumps, treatment and testing equipment, industrial pumps, valves, heat exchangers, and dispensing equipment.

Toray Industries manufactures yarns, synthetic fibers, and man-made leather used as apparel and industrial materials. The Company also makes chemical products such as polyester films, engineering plastics, and resin materials. Toray develops information equipment such as electronic circuit and liquid crystal colour filters.

Johnson Matthey is a world leader in the design and development of catalysts and other systems for fuel cells, gas detectors, vehicle and industrial emissions controls.

EDP Renavaveis designs, develops, manages and operates power plants. The Company generates electricity using renewable energy sources mostly wind energy.

Sensata Technologies develops, manufactures, and sells sensors and controls. The Company produces thermal circuit breakers for aircraft, pressure sensors in automotive systems, and bimetal current and temperature control devices in electric motors.

FirstGroup is an international passenger group which has bus and rail operations in the United Kingdom and North America. The Group's operations comprise bus and passenger rail franchises, in addition to transit management, school bus operations, and fleet maintenance.

RPS is a multi-discipline environmental consultancy providing advice to both the public and private sector. Increasing levels of environmental regulation, a heightened awareness of the importance of environmental best practice and a growing need for clean energy and climate change solutions should drive demand for the Company's services.

Itron provides solutions for collecting, communicating, and analyzing electric, gas, and water usage data. The Company sells its products to the utility industry. Itron designs, manufactures, markets, sells, installs, and services hardware, software, and integrated systems for handheld computer-based electronic meter reading and automatic reader systems.

National Express Group provides mass passenger transport services. The Group operates express coaches, buses, and trains.

Renewi provides waste management services. The Company collects and recycles energy and fuel, paper, metal, plastic, glass, woodchips and compost, and other products. Renewi serves customers in Europe and North America.

Horiba manufactures and markets measuring instruments and analyzers. The Company's main product lines are scientific analyzers, environment monitoring, medical analyzers, engine emission analyzers, and semiconductor test equipment. Horiba operates worldwide.

United Natural Foods distributes natural foods and related products. The Company offers natural products consisting of groceries and general merchandise, nutritional supplements, bulk and foodservice products, personal care items, perishables and frozen foods.

Strategic Report continued

Strategic Review

The Strategic Report has been prepared in accordance with the Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013.

The Strategic Report seeks to provide shareholders with the relevant information to enable them to assess the performance of the Directors of the Company during the period under review.

Business and Status

During the year the Company carried on business as an investment trust with its principal activity being portfolio investment. The Company has been approved by HM Revenue & Customs ('HMRC') as an investment trust subject to the Company continuing to meet the eligibility conditions of sections 1158 and 1159 of the Corporation Taxes Act 2010 and the ongoing requirements for approved companies as detailed in Chapter 3 of Part 2 of the Investment Trust (Approved Company) (Tax) Regulations 2011. In the opinion of the Directors, the Company has conducted its affairs in the appropriate manner to retain its status as an investment trust.

The Company is an investment company within the meaning of section 833 of the Companies Act 2006.

The Company is not a close company within the meaning of the provisions of the Corporation Tax Act 2010 and has no employees.

The Company was incorporated in England & Wales on 12 April 2006 and started trading on 8 June 2006, immediately following the Company's launch.

Reviews of the Company's activities are included in the Chairman's Statement and Investment Adviser's Review on pages 5 to 7.

There has been no significant change in the activities of the Company during the year to 31 March 2017 and the Directors anticipate that the Company will continue to operate in the same manner during the current financial year.

Investment Objective

The investment objective of the Company is to generate long-term capital growth for Ordinary shareholders through a diverse portfolio of companies providing environmental solutions.

Investment Strategy

The Investment Adviser has adopted a bottom-up approach. The Investment Adviser, supported by the sustainable investment and governance team, researches companies, ensuring that each potential investment falls within the Company's stated investment policy. Consideration is also given to a potential investment's risk/return profile and growth prospects before an investment is made. Once companies operating within the appropriate theme have been identified and due diligence has been carried out, the Investment Adviser will decide whether a particular investment would be appropriate.

Investment Policy

The Company's portfolio has a bias towards small and medium capitalisation companies. It invests primarily in securities which are quoted, listed or traded on a recognised exchange. However, up to 5 per cent. of the Company's Total Assets (at the time of such investment) may be invested in unlisted securities.

The following investment restrictions are observed:

- no more than 15 per cent. of the Total Assets of the Company (before deducting borrowed money) is lent to or invested in any one company or group (including loans to or shares in the Company's own subsidiaries) at the time the investment or loan is made. For this purpose any existing holding in the company or group concerned is aggregated with the proposed investment;
- distributable income is principally derived from investments. Neither the Company nor any subsidiary conducts a trading activity which is significant in the context of the group as a whole;
- not more than 10 per cent., in aggregate, of the value of the Total Assets of the Company (before deducting borrowed money) is invested in other UK listed investment companies (including investment trusts) listed on the Official List. Whilst the requirements of the UK Listing Authority permit the Company to invest up to this 10 per cent. limit, it is the Directors' current intention that the Company invests not more than 5 per cent., in aggregate, of the value of the Total Assets of the Company (before deducting borrowed money) in such other investment companies; and
- the Company at all times invests and manages its assets in a way which is consistent with its object of spreading investment risk.

In accordance with the requirements of the UK Listing Authority, any material changes in the principal investment policies and restrictions of the Company would only be made with the approval of shareholders by ordinary resolution.

Benchmark Index

The Company's Benchmark Index is the MSCI World Small Cap Net Total Return Index, expressed in Sterling.

Management

The Company has no employees and most of its day to day responsibilities are delegated to Jupiter Asset Management Limited ('JAM'), who act as the Company's Investment Adviser and Company Secretary. Further details of the Company's arrangement with JAM and the Alternative Investment Fund Manager ('AIFM'), Jupiter Unit Trust Managers Limited, can be found in Note 21 to the accounts on page 45.

J.P. Morgan Europe Limited ('JPMEL') acts as the Company's Depository and the Company has entered into an outsourcing arrangement with J.P Morgan Chase Bank N.A. ('JPMCB') for the provision of accounting and administration services.

Although JAM is named as the Company Secretary, JPMEL provides administrative support to the Company Secretary as part of its formal mandate to provide broader fund administration services to the Company.

Viability Statement

In accordance with provision C.2.2 of the UK Corporate Governance Code as issued by the Financial Reporting Council ('FRC') in April 2016, the Board has assessed the prospects of the Company over the next three years. The Company's investment objective is to achieve long-term capital growth and the Board regards the Company as a long-term investment.

The Board has considered the Company's business model including its investment objective and investment policy as well as the principal

Strategic Report continued

Strategic Review continued

risks and uncertainties that may affect the Company as detailed below.

The Board has noted that:

- The Company holds a highly liquid portfolio invested predominantly in listed equities; and
- No significant increase to ongoing charges or operational expenses is anticipated.

The Board has therefore concluded that there is a reasonable expectation that the Company will be able to continue in operation and meet its liabilities as they fall due over the next three years.

As part of its assessment, the Board has noted that shareholders will be required to vote on the continuation of the Company at the 2017 AGM. Further information regarding the planned life of the Company can be found on page 15.

Gearing

Gearing is defined as the ratio of a company's total assets to its net assets, expressed as a percentage. The effect of gearing is that in rising markets a geared share class tends to benefit from any outperformance of the relevant company's investment portfolio above the cost of payment of the prior ranking entitlements of any lenders and other creditors. Conversely, in falling markets the value of the geared shares class suffers more if the company's investment portfolio underperforms the cost of those prior entitlements.

The Company may utilise gearing at the Director's discretion for the purpose of financing the Company's portfolio and enhancing shareholder returns. In particular, the Company may be geared by bank borrowings which will rank in priority to the Ordinary shares for repayment on a winding up or other return of capital.

The Articles of Association (the 'Articles') provide that, without the sanction of the Company in a general meeting, the Company may not incur borrowings above a limit of 25 per cent. of the Company's total assets at the time of drawdown of the relevant borrowings.

Loan facility

The Company has a revolving £3 million bank loan facility with Scotiabank Europe PLC. The Company did not draw down this loan during the year under review. The finance costs shown in the Statement of Comprehensive Income are in respect of the costs incurred for non-utilisation of the facility during the year.

Use of Derivatives

The Company may invest in derivative financial instruments, comprising options, futures and contracts for difference for investment, hedging and efficient portfolio management, as more fully described in the investment policy. There is a risk that the use of such instruments will not achieve the goals desired. Also, the use of swaps, contracts for difference and other derivative contracts entered into by private agreements may create a counterparty risk for the Company. This risk is mitigated by the fact that the counterparties must be institutions subject to prudential supervision and that the counterparty risk on a single entity must be limited in accordance with the individual restrictions.

Currency Hedging

The Company's accounts are maintained in Sterling while investments and revenues are likely to be denominated and quoted in currencies other than Sterling. Although it is not the Company's present intention to do so, the Company may, where appropriate and economic to do so, employ a policy of hedging against fluctuations in the rate of exchange

between Sterling and other currencies in which its investments are denominated.

Key Performance Indicators

At their quarterly Board meetings the Directors consider a number of performance indicators to help assess the Company's success in achieving its objectives. The key performance indicators used to measure the performance of the Company over time are as follows:

- · Net Asset Value changes over time;
- Ordinary share price movement;
- A comparison of Ordinary share price and Net Asset Value to benchmark;
- · Discount and premium to Net Asset Value;.

Information on some of the above Key Performance Indicators and how the Company has performed against them can be found on page 4.

In addition, a history of the Net Asset Values, the price of the Ordinary shares and the Benchmark Index are shown on the monthly factsheets which can be viewed on the Investment Adviser's website **www.jupiteram.com/JGC** and which are available on request from the Company Secretary.

Discount to Net Asset Value

The Directors review the level of the discount or premium between the middle market price of the Company's Ordinary shares and their Net Asset Value on a regular basis.

The Directors have powers granted to them at the last Annual General Meeting to purchase Ordinary shares and either cancel or hold them in treasury as a method of controlling the discount to Net Asset Value and enhancing shareholder value.

The Company repurchased 1,292,851 Ordinary shares for cancellation during the year under review at an average discount of 8.1 per cent.

Under the Listing Rules, the maximum price that may currently be paid by the Company on the repurchase of any Ordinary shares is 105% of the average of the middle market quotations for the Ordinary shares for the five business days immediately preceding the date of repurchase. The minimum price will be the nominal value of the Ordinary shares. The Board is proposing that its authority to repurchase up to approximately 14.99% of its issued share capital should be renewed at the Annual General Meeting. The new authority to repurchase will last until the conclusion of the Annual General Meeting of the Company in 2018 (unless renewed earlier). Any repurchase made will be at the discretion of the Board in light of prevailing market conditions and within guidelines set from time to time by the Board, the Companies Act, the Listing Rules and Model Code.

Principal Risks and Uncertainties

The principal risk factors relating to the Company can be divided into the following areas:

Investment policy and process – Inappropriate investment policies and processes may result in under performance against the prescribed Benchmark Index and the Company's peer group.

The Board manages these risks by ensuring a diversification of investments and regularly reviewing the portfolio asset allocation and investment process. In addition, certain investment restrictions have been set and these are monitored as appropriate.

Strategic Report continued

Strategic Review continued

Investment Strategy and Share Price Movements – The Company is exposed to the effect of variations in the price of its investments. A fall in the value of its portfolio will have an adverse effect on shareholders' funds. It is not the aim of the Board to eliminate entirely the risk of capital loss, rather it is its aim to seek capital growth. The Board reviews the Company's investment strategy and the risk of adverse share price movements at its quarterly board meetings taking into account the economic climate, market conditions and other factors that may have an effect on the sectors in which the Company invests. There can be no assurances that appreciation in the value of the Company's investments will occur but the Board seeks to reduce this risk.

Discount to Net Asset Value – A discount in the price at which the Company's shares trade to Net Asset Value would mean that shareholders would be unable to realise the true underlying value of their investment. As a means of controlling the discount to Net Asset Value the Board has established a buy back programme which is under constant review as market conditions change.

Gearing Risk – The Company's gearing can impact the Company's performance by accelerating the decline in value of the Company's Net Assets at a time when the Company's portfolio is declining. Conversely gearing can have the effect of accelerating the increase in the value of the Company's Net Assets at a time when the Company's portfolio is rising. At its quarterly meetings the Board is mindful of the outlook for equity markets when reviewing the Company's gearing. Further details of the use of the loan facility can be found in Note 6 to the accounts on page 35.

Regulatory Risk – The Company operates in a complex regulatory environment and faces a number of regulatory risks. A breach of section 1158 of the Corporation Tax Act 2010 could result in the Company being subject to capital gains tax on portfolio movements. Breaches of other regulations such as the UKLA Listing rules, could lead to a number of detrimental outcomes and reputational damage. Breaches of controls by service providers such as the Investment Adviser could also lead to reputational damage or loss. The Board relies on the services of its Company Secretary, JAM, and its professional advisers to ensure compliance with, amongst other regulations, the Companies Act 2006, the UKLA Listing Rules, the FCA's Disclosure and Transparency Rules and the Alternative Investment Fund Managers Directive. The Investment Adviser is contractually obliged to ensure that its conduct of business conforms to applicable laws and regulations.

Credit and Counterparty Risk – The failure of the counterparty to a transaction to discharge its obligations under that transaction could result in the Company suffering a loss. Further details of the management of this risk can be found in Note 12 to the accounts on page 42.

Loss of Key Personnel – The day-to-day management of the Company has been delegated to the Investment Adviser. Loss of the Investment Adviser's key staff members could affect investment return. The Board is aware that JAM recognises the importance of its employees to the success of its business. Its remuneration policy is designed to be market competitive in order to motivate and retain staff and succession planning is regularly reviewed. The Board also believes that suitable alternative experienced personnel could be employed to manage the Company's portfolio in the event of an emergency.

Operational – Failure of the core accounting systems, or a disastrous disruption to the Investment Adviser's business or that of the administration provider JPMCB, could lead to an inability to provide accurate reporting and monitoring.

Financial—Inadequate financial controls could result in misappropriation of assets, loss of income and debtor receipts and inaccurate reporting of Net Asset Value per share. The Board annually reviews the Investment Adviser's report on its internal controls and procedures.

Details of how the Board monitors the operational services and financial controls of JAM and JPMCB are included within the Internal Control section of the Report of the Directors on page 18.

Capital Gains Tax Information

The closing price of the Ordinary shares on the first date of dealing for capital gain tax purposes was 99p.

Directors

Details of the Directors of the Company and their biographies are set out on page 16.

The Company's policy on Board diversity is included in the Corporate Governance section of the Report of the Directors on page 21.

As at 31 March 2017, the Board comprises of one female and two male directors.

Employees, Environmental, Social and Human Rights issues

The Company has no employees as the Board has delegated the day-to-day management and administration functions to Jupiter Unit Trust Managers Limited ('JUTM'), JAM and other third parties. There are therefore no disclosures to be made in respect of employees.

The Board has noted the Investment Adviser's policy on Environmental, Social and Human Rights issues as detailed below:

The Investment Adviser considers various factors when evaluating potential investments. While an investee company's policy towards environmental and social responsibility, including with regard to human rights, is considered as part of the overall assessment of risk and suitability for the portfolio, the Investment Adviser does not necessarily decide to, or not to, make an investment on environmental and social grounds alone.

Global Greenhouse Gas Emissions

The Company has no greenhouse gas emissions to report from its operations as the day to day management and administration functions have been outsourced to third parties and it neither owns physical assets, property nor has employees of its own. It therefore does not have responsibility for any other emissions producing sources under the Companies Act 2006 (Strategic Report on Directors' Reports) Regulations 2013.

Strategic Report continued

Dividend Policy, Planned Life of the Company, Discount Control and Subscription Rights

Dividend Policy

The Board has not set an objective of a specific portfolio yield for the Company and the level of such yield is expected to vary with the sectors and geographical regions to which the Company's portfolio is exposed at any given time. However, substantially all distributable revenues that are generated from the Company's investment portfolio are expected to be paid out in the form of dividends.

The distribution as dividend of surpluses arising from the realisation of investments is prohibited by the Company's Articles. Such surpluses will accrue for the benefit of the Company. Dividends will not be paid unless they are covered by income from underlying investments.

Planned Life of the Company

The Company does not have a fixed life, however, the Board considers it desirable that shareholders should have the opportunity to review the future of the Company after an initial period of eight years from the date of Admission and at every third subsequent AGM thereafter. Accordingly, the Directors will propose Resolution 9 on pages 19 and 20, as an ordinary resolution for the continuation of the Company in its current form at the AGM of the Company to be held on 5 September 2017. If such resolution is not passed, the Directors will formulate proposals to be put to shareholders to reorganise or reconstruct the Company or for the Company to be wound-up and the assets realised at Fair Value.

Discount Control

The Directors believe that the Ordinary shares should not trade at a significant discount to their prevailing Net Asset Value.

The Board uses share buy-backs to assist in diluting discount volatility and to seek to narrow the discount to Net Asset Value at which the Companies shares trade overtime where in normal market conditions, the Company's share price does not materially vary from its NAV per share.

Subscription Rights

Shareholders have an annual opportunity to subscribe for Ordinary shares on the basis of one new Ordinary share for every ten Ordinary shares held at 31 March of each year. The subscription price will be equal to the audited undiluted net asset value per share being 184.33p as at 31 March 2017. The next subscription date will be 31 March 2018. A reminder will be sent to shareholders prior to the subscription date.

For and on behalf of the Board

Michael Naylor Chairman 30 June 2017

Report of the Directors & Governance

Directors

Michael Naylor[†]

Chairman of the Board and Management Engagement Committee

is an advisory board member of Toronto based water technology private equity fund XPV Water Partners LLC and an advisory board member of K Road DG LLC based in New York. He is also an advisory Board Member of Actis Energy 3, the London based private equity fund focused on energy infrastructure specifically in emerging markets and an advisory Board member of the Cambridge Institute for Sustainability Leadership (CISL).

Simon Baker†

Chairman of the Audit Committee

was a director and fund manager of Charities Official Investment Fund 1983, Chairman of Tideford Organic Foods, co-founder of Windsor Investment Management 1985 and is trustee of various charity, sports and education trusts. He was employed by Jupiter between 1994 and 2006 as director and head of the green department.

Dame Polly Courtice†

Chairman of the Nomination Committee

is the director of the Cambridge Institute for Sustainability Leadership (CISL) which runs leadership development courses, strategic dialogues and other educational services for executives from private, public and not-for-profit organisations around the world. She is a non-executive director of Anglian Water Services Ltd and also serves on several corporate advisory panels. She was made a Dame Commander of the Order of the British Empire (DBE) in June 2016 and was appointed a member of the Royal Victorian Order in 2008. Her first degree is from the University of Cape Town and she has an MA from the University of Cambridge.

[†] Members of the Audit Committee, Management Engagement Committee and Nomination Committee.

Report of the Directors & Governance continued

Report of the Directors

The Directors present the Annual Report and Accounts of the Company for the year ended 31 March 2017.

Results and Dividends

The financial highlights of the Company are set out on page 4. In addition, results and reserve movements for the year are set out in the Statement of Comprehensive Income and Statement of Financial Position on pages 29 and 30 and the Notes to the Accounts on pages 33 to 45.

On 31 August 2016 the Company announced the payment of a final dividend of 0.65p (net) for the year ended 31 March 2016 per Ordinary share which was paid on 30 September 2016 to those shareholders on the Register of Members as at 9 September 2016. A resolution to declare a final dividend of 1.20p net per Ordinary share for the year ended 31 March 2017 will be proposed at the Company's AGM on 5 September 2017. Subject to shareholder approval, the final dividend will be paid on 6 October 2017 to those shareholders on the Register of Members on 15 September 2017.

Capital Structure

Ordinary shares

As at 31 March 2017 the Company's issued share capital was 33,724,958 Ordinary shares of 0.1p each of which 12,834,010 are held in Treasury. As a result the total voting rights as at 31 March 2017 was 20,890,948. All of the Ordinary shares are fully paid and carry one vote per share. The Ordinary shares are listed on the London Stock Exchange. There are no restrictions on the holding or transfer of the Ordinary shares which are governed by the general provisions of the Articles of the Company. During the year a total of 1,292,851 Ordinary shares were repurchased. At the AGM of the Company, held on 31 August 2016, shareholder approval to renew the share repurchase authority was obtained. The Company is not aware of any agreements between shareholders that restrict the transfer of Ordinary shares.

Notifiable Interests in the Company's Voting Rights

In accordance with the Disclosure and Transparency Rules as issued by the Financial Conduct Authority ('FCA'), the Company has been notified of the following substantial interests in the Ordinary shares. The Directors are not aware of any other material interests amounting to 3 per cent. or more of the share capital of the Company.

Substantial Shareholders

The Company has been notified of the following substantial shareholdings in the Ordinary shares:

Ordinary shares

	31 March 2017	
	Number	%
Jupiter Asset Management Limited		
(on behalf of other clients)	4,088,332	19.57
West Yorkshire Pension Fund	1,399,824	6.70

Subscription Rights

At the General Meeting of shareholders held on 20 June 2012 resolutions were approved altering the Articles of Association of the Company to provide for subscription rights to be embedded within the Ordinary shares. In addition a revised discount control policy was ratified and the share buyback authority renewed. Shareholders have

an annual opportunity to subscribe for Ordinary shares on the basis of one new Ordinary share for every ten Ordinary shares held at 31 March of each year.

The subscription price will be equal to the audited undiluted NAV per share as shown in the published report and accounts prepared at 31 March in the previous year. The next subscription date will be 31 March 2018. A reminder will be sent to shareholders prior to the subscription date.

The 2017 subscriptions programme resulted in the sale and issuance of 554,321 Ordinary shares from treasury. As at 31 May 2017 the issued share capital of the Company was 33,724,958 Ordinary shares of which 12,349,689 are held in Treasury. As a result the total voting rights were 21,375,269 as at that date.

Repurchase of Shares

Authority to Repurchase Shares

At the AGM held on 31 August 2016 shareholders renewed the authority to buy back the Company's Ordinary shares for cancellation or holding in Treasury. The Board are seeking to renew the Company's buy-back powers at the forthcoming AGM. It is believed that these provisions provide a valuable tool in the management of the Company's share value against Net Asset Value. The current authority allows the Company to purchase up to 14.99 per cent. of the issued Ordinary shares. Purchases would be made at the discretion of the Board and within guidelines set from time to time. Under the Listing Rules and the buy-back and stabilisation regulation the maximum price for such a buy-back cannot be more than the higher of (i) 105 per cent. of the average middle market price for the five days immediately preceding the date of repurchase; and (ii) the higher of the price of the last independent trade and the highest current independent bid.

Treasury Shares

The Board believes that the effective use of Treasury shares can assist the Company in improving liquidity in the Company's Ordinary shares, managing any imbalance between supply and demand and minimizing the volatility of the discount at which the Ordinary shares trade to their Net Asset Value for the benefit of shareholders. It is believed that this facility gives the Company the ability to sell Ordinary shares held in Treasury quickly and cost effectively, and provides the Company with additional flexibility in the management of the capital base.

The Board shall have regard to current market practice for the reissue of Treasury shares by investment trusts and the recommendations of the Investment Adviser. The Board will make an announcement of any change in its policy for the reissue of Ordinary shares from Treasury via a Regulatory Information Service approved by the FCA. The Board's current policy is that any Ordinary shares held in Treasury will not be resold by the Company at a discount to the Investment Adviser's estimate of the presiding Net Asset Value per Ordinary share as at the date of issue.

Directors

The directors of the Company and their biographies can be found on page 16. All directors held office throughout the year under review.

Directors' Remuneration and Interests

The Directors Remuneration Report and Policy on pages 24 and 25 provides information on the remuneration and shareholdings of the Directors.

Report of the Directors & Governance continued

Report of the Directors continued

Conflicts of Interest

Each Director has a statutory duty to avoid a situation where he has or might have a direct or indirect interest which conflicts or might conflict with the interests of the Company, unless, in terms of the Articles of Association, the relevant conflict or potential conflict has been authorised by the Board. The Directors have declared all potential conflicts of interest with the Company. The Register of potential conflicts of interest is kept at the Registered Office of the Company. It is reviewed regularly by the Board and all Directors will advise the Company Secretary as soon as they become aware of any potential conflicts of interest. Directors who have potential conflicts of interest will not take part in any discussions which relate to any of their potential conflicts.

Directors' and Officers' Liability Insurance

During the year under review the Company purchased and maintained liability insurance for its Directors and officers as permitted by Section 233 of the Companies Act 2006.

Directors and Company Secretary Indemnification

The Company has indemnified its Directors and Company Secretary in respect of their duties as Directors and officers of the Company, certain civil claims brought by third parties and associated legal costs to the extent that they are permitted by the Companies (Audit, Investigations and Community Enterprise) Act 2004.

Management of the Company

Jupiter Unit Trust Managers Limited ('JUTM') was appointed as Alternative Investment Fund Manager ('AIFM') to the Company on 22 July 2014. JUTM subsequently delegated the portfolio management of the Company to Jupiter Asset Management Limited ('JAM'). JUTM and JAM are wholly owned subsidiaries of Jupiter Fund Management plc. Further details of the Company's arrangement with JUTM and JAM can be found in Note 21 to the Accounts on page 45.

The Directors have reviewed the performance and terms of appointment of JUTM as the Company's AIFM. A summary of the terms of the appointment including the notice of termination period, annual fee and any performance fee payment is set out in Note 21 to the Accounts on page 45. The Directors believe that it is in the best interests of all shareholders for the Company to continue the appointment of the Investment Adviser on its existing terms of appointment having reviewed the company secretarial, accounting, fund management and other services provided by Jupiter and having regard to the Company's performance against its Benchmark Index during the year under review. The Directors are of the view that the portfolio should remain under the Investment Adviser's stewardship.

Going Concern

The financial statements have been prepared on a going concern basis. The Directors consider that this is the appropriate basis as they have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. In considering this, the Directors took into account the Company's investment objective, risk management policies and capital management policies, the diversified portfolio of readily realisable securities which can be used to meet short-term funding commitments and the ability of the Company to meet all of its liabilities and ongoing expenses. The Directors continue to adopt the going concern basis of accounting in preparing the financial statements while recognising that the Articles of the Company require a continuation vote at every third AGM. Further information regarding the planned life of the Company can be found on page 15.

ISA Qualification

The Company currently manages its affairs so as to be a qualifying investment trust under the Individual Saving Account (ISA) rules. As a result, under current UK legislation, the Ordinary shares qualify for investment via the stocks and shares component of an ISA up to the full annual subscription limit, currently £20,000 (2017/18) in each tax year. It is the present intention that the Company will conduct its affairs so as to continue to qualify for ISA products.

Bribery Prevention Policy

The provision of bribes of any nature to third parties in order to gain a commercial advantage is prohibited and is a criminal offence. The Board takes its responsibility to prevent bribery by Jupiter on its behalf very seriously. To aid the prevention of bribery being committed for the benefit of the Company; Jupiter has adopted a Bribery Prevention Policy. Jupiter will advise the Board of any changes to the policy.

Internal Controls

In accordance with The UK Corporate Governance Code as issued by the Financial Reporting Council, the Board is responsible for monitoring the Company's risk management and internal control systems and reviewing their effectiveness, at least annually, and report on that review in the Company's annual report. Internal control systems are designed to meet the particular requirements of the Company and to manage rather than eliminate the risks of failure to achieve its objectives. The systems by their very nature can provide reasonable but not absolute assurance against material misstatement or loss. The Board has reviewed the effectiveness of the Company's internal control systems including the financial, operational and compliance controls and risk management. These systems have been in place for the period under review and to the date of signing the accounts.

The Company receives services from JAM and JPMCB relating to investment advice, global custody and certain administration activities. J.P. Morgan Europe Limited was appointed as Depository to the Company with effect from 22 July 2014. Documented contractual arrangements are in place with JAM and J.P. Morgan which define the areas where the Company has delegated authority to them. The Directors have considered the reports on the internal control objectives and procedures of JAM and J.P. Morgan together with the opinion of the service auditor for these reports which detail the measures and the testing of the measures which are in place to ensure the proper recording, valuation, physical security and protection from theft of the Company's investments and assets and the controls which have been established to ensure compliance with all regulatory, statutory and fiscal obligations of the Company.

The Directors have also had regard to the procedures for safeguarding the integrity of the computer systems operated by JAM and J.P. Morgan and the key business disaster recovery plans. By way of the procedures described above the Board reviews the procedures in place to manage the risks to the Company on an annual basis.

The Company does not have an internal audit function. The Audit Committee considers whether there is a need for an internal audit function on an annual basis. As most of the Company's functions are delegated to third parties the Board does not consider it necessary for the Company to establish its own internal audit function.

UK Stewardship Code and the Exercise of Voting Powers

The Company's Investment Adviser, is responsible for voting the shares it holds on the Company's behalf. The Investment Adviser supports the

Report of the Directors & Governance continued

Report of the Directors continued

UK Stewardship Code as issued by the Financial Reporting Council ('FRC'), which sets out the responsibilities of institutional shareholders in respect of monitoring and engaging with investee companies.

The Investment Adviser's UK voting policies are consistent with the UK Stewardship Code. The Investment Adviser's Corporate Governance & Voting Policy can be found at www.jupiteram.com

The Board and the Investment Adviser believe that shareholders have a vital role in encouraging a higher level of corporate performance and therefore adopt a positive approach to corporate governance. The Investment Adviser aims to act in the best interests of all its stakeholders by engaging with companies that they invest in, and by exercising its voting rights with care. Not only is this commensurate with good market practice, it goes hand in hand with ensuring the responsible investment of its clients' funds. Equally, companies are asked to present their plans for maintaining social and environmental sustainability within their business.

The Board and the Investment Adviser believe that institutional investors should exercise their corporate governance rights including voting at general meetings.

In order to assist in the assessment of corporate governance and sustainability issues and contribute to a balanced view, the Investment Adviser subscribes to external corporate governance and sustainability research providers but does not routinely follow their voting recommendations. Contentious issues are identified and, where necessary (and where timescales permit), are discussed with corporate governance and/or sustainability analysts and portfolio managers, and companies. The Investment Adviser ensures that its policy is voted in practice and timely voting decisions made.

From time to time resolutions will be brought to Annual General Meetings by third parties encouraging companies to address specific environmental and/or social concerns. In such instances, Jupiter's corporate governance and sustainability analysts will discuss their views with the portfolio manager and the company if appropriate. The Investment Adviser will then vote for what it considers to be in the best financial interests of shareholders, whilst having regard for any specific sustainability concerns unless otherwise directed.

Common Reporting Standards

With effect from 1 January 2016, The Organisation for Economic Cooperation and Development ('OECD') introduced new Regulations for Automatic Exchange of Financial Account Information (the Common Reporting Standard, 'CRS'). HMRC enacted the CRS in the UK through The International Tax Compliance Regulations 2015.

These Regulations require all Financial Institutions to share certain information on overseas shareholders with HMRC; this scope includes an obligation for Investment Trust Companies which had previously had no such reportable accounts under the UK FATCA regulations. Accordingly, the Company will be required to provide information to HMRC on the tax residencies of a number of non-UK based certificated shareholders and corporate entities on an annual basis. HMRC will in turn exchange this information with tax authorities in the country in which the shareholder may be resident for taxation purposes. HMRC has advised that the Company will not be required to provide such information on uncertified holdings held through CREST. The Company has engaged Capita Asset Services to provide such information on certificated holdings to HMRC on an annual basis with the first reportable period being for the period ended 31 December 2016. This

information was submitted to HMRC on 9 March 2017 the deadline being 31 May 2017 annually.

AIFM Remuneration Code

JUTM is required to comply with the AIFM Remuneration Code. This includes an obligation to disclose in the annual report of each Alternative Investment Fund ('AIF') for which it has been appointed as AIFM, details of the total remuneration paid to its staff including, amongst other things, splitting remuneration into fixed and variable remuneration and breaking down remuneration for those whose actions have a material impact on the risk profile of the relevant AIF. Full disclosure is made on Jupiter's website at www.jupiteram.com.

Shareholder Relations

All shareholders have the opportunity to attend and vote at the AGM during which the Directors and Investment Adviser will be available to answer questions regarding the Company. The Notice of Meeting sets out the business of the AGM and any item not of an entirely routine nature is explained in the Directors' Report or Notes accompanying the Notice. Separate resolutions are proposed for each substantive issue. Information about proxy votes is available to shareholders attending the AGM and published thereafter on the Investment Adviser's website.

The Company reports to shareholders two times a year by way of the Interim Report and Annual Report & Accounts. In addition, Net Asset Values are published on a daily basis and monthly factsheets are published on the Investment Adviser's website www.jupiteram.com/JGC.

The Board has developed the following procedure for ensuring that each Director develops an understanding of the views of shareholders. Regular contact with major shareholders is undertaken by the Company's corporate brokers and the corporate finance executive of the Investment Adviser. Any issues raised by major shareholders are then reported to the Board. The Board also receives details of all material correspondence with shareholders and the Chairman and individual Directors are willing to meet shareholders to discuss any particular items of concern regarding the performance of the Company. The Chairman, Directors and representatives of the Investment Adviser are also available to answer any questions which may be raised by a shareholder at the Company's AGM.

Statement in Respect of the Annual Report & Accounts

Having taken all available information into consideration, the Board has concluded that the Annual Report & Accounts for the year ended 31 March 2017, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy. The Board's conclusions in this respect are set out in the Statement of Directors' Responsibilities on page 26.

Annual General Meeting

This year's AGM will be held on Tuesday 5 September 2017, at 11:45 a.m. at the offices of Jupiter Asset Management Limited, The Zig Zag Building, 70 Victoria Street, London SWIE 6SQ.

In addition to the ordinary business to be conducted at the meeting, the following resolutions will be proposed.

Resolution 9: Continuation vote

In accordance with the Articles, the Directors are required to propose an ordinary resolution at the forthcoming AGM (and at every third

Report of the Directors & Governance continued

Report of the Directors continued

annual general meeting thereafter) that the Company shall continue in being as an investment trust. Accordingly, the Directors are proposing Resolution 9, which will be proposed as an ordinary resolution.

Resolution 10: Authority to allot

Resolution 10 seeks authority for the Directors to allot Ordinary shares up to an aggregate nominal amount of approximately £7,111.76. This authority will represent one third of the Company's issued share capital as at 27 June 2017 (excluding treasury shares). This authority will expire at the conclusion of the Company's AGM in 2018 and it is the intention of the Directors to seek renewal of this authority at that AGM. The Board will only use this authority to allot Ordinary shares where it believes that it is in the best interests of the Company to issue shares for cash.

Resolution 11: Disapplication of pre-emption rights

The Directors may only allot shares for cash or sell shares held in treasury, other than by way of offer to all existing shareholders pro rata to their shareholdings if they are authorised to do so by the shareholders in general meeting. This resolution seeks authority for the Directors to allot shares for cash or sell Ordinary shares held in treasury without first offering them to existing shareholders up to a nominal amount of £2,133.53. This sum represents 21,335,269 Ordinary shares of 0.1p each, being equivalent to approximately 10 per cent. of the current issued share capital as at 27 June 2017 (excluding treasury shares).

The current authority will expire at the conclusion of the 2017 AGM and it is the intention of the Directors to seek renewal of this authority at that AGM. The Directors will only use this authority in circumstances where they consider it is in the best interests of the Company. Shares will only be issued at a premium to NAV at the time of issue.

Resolution 12: Authority to buy-back shares

Resolution 12 is seeking to renew authority to purchase through the London Stock Exchange Ordinary shares representing 14.99 per cent. of the issued share capital of the Company.

The decision as to whether the Company purchases any such shares will be at the discretion of the Directors. Purchases of Ordinary shares will be made within the guidelines permitted by the UK Listing Authority.

Any Ordinary shares which are repurchased may be held in Treasury. These shares may subsequently be cancelled or sold for cash at above their Net Asset Value at the time of sale.

Resolution 13: Notice of General Meetings

Resolution 13 is required to reflect the Shareholders Rights Directive (the 'Directive'). The Directive has increased the notice period for General Meetings of the Company to 21 days. If Resolution 13 is passed the Company will be able to call all General Meetings, (other than Annual General Meetings), on 14 clear days' notice. In order to be able to do so shareholders must have approved the calling of meetings on 14 clear days' notice. Resolution 13 seeks such renewal of the equivalent approval given at the 2016 AGM.

The approval will be effective until the Company's next AGM, when it is intended that a similar resolution will be proposed. The Company will also need to meet the requirements for electronic voting under the Directive before it can call a General Meeting on 14 clear days' notice.

Recommendation

The Board considers that the passing of the resolutions being put to the Company's AGM would be in the best interest of the Company and its Shareholders as a whole. It therefore recommends that shareholders vote in favour of Resolutions 1 to 13, as set out in the Notice of Annual General Meeting.

By Order of the Board

Jupiter Asset Management Limited Company Secretary 30 June 2017

Report of the Directors & Governance continued

Corporate Governance

Corporate Governance Compliance Statement

This statement, together with the Statement of Directors' Responsibilities on page 26 and the statement of Internal Controls on page 18, indicates how the Company has complied with the recommendations of the AIC Code of Corporate Governance and the relevant provisions of the FRC's UK Corporate Governance Code.

The Board is committed to continued compliance with the AIC Code. A description of the main features of the Company's internal control and risk management functions can be found on pages 13, 14 and 18 of this Report.

The Board

Role of the Board

The Board receives monthly reports and meets at least quarterly to review the overall business of the Company and to consider matters specifically reserved for its review. At these meetings the Board monitors the investment performance of the Company. The Directors also review the Company's activities every quarter to ensure that it adheres to its investment policy or, if appropriate, to make any changes to that policy.

Additional ad hoc reports are received as required and Directors have access at all times to the advice and services of the Company Secretary, who is responsible for ensuring that Board procedures are followed and that applicable rules and regulations are complied with. The Board has adopted a schedule of items specifically reserved for its decision.

A procedure has been adopted for the Directors, in the furtherance of their duties, to take independent professional advice at the expense of the Company.

Composition

As at 31 March 2017 the Board of Directors comprised three non-executive Directors all of whom are independent of the Investment Adviser. Michael Naylor is the Chairman. The Company has no executive Directors and no employees. The structure of the Board is such that it is considered unnecessary to identify a Senior Independent Director other than the Chairman. The Director's biographies can be found on page 16.

Tenure

The Board does not consider it appropriate that Directors should be appointed for a specific term.

Diversity

It is seen as a prerequisite that each member of the Board must have the skills, experience and character that will enable them to contribute to the effectiveness of the Board and the success of the Company. Subject to that overriding principle, diversity of experience and approach, including gender diversity, amongst Board members is of great value, and it is the Board's policy to give careful consideration to overall Board balance and diversity in making new appointments to the Board.

Re-election

Provision B.7.1 of the Code states that directors are subject to election by shareholders at the first annual general meeting following their appointment, and to re-election thereafter at intervals of no more than three years. In addition, non-executive directors who have served longer than nine years should be subject to annual re-election.

Having served for longer than nine years, Dame Polly Courtice is automatically subject to annual re-election. The Board does not consider that the length of service of a Director necessarily impairs his or her independence. Following the annual performance evaluation of each Director, the Board has concluded that Dame Polly Courtice continues to demonstrate independence of character and judgement and that her skills and experience enhance the collective strength of the Board.

Although the Company is not a member of the FTSE 350, in accordance with best practice and the recommendations of the AIC Code, the Board is recommending that all Directors be subject to re-election at the forthcoming AGM.

Training

Although no formal training in Corporate Governance is given to Directors, the Directors are kept up-to-date on Corporate Governance issues through bulletins and training materials provided from time to time by the Company Secretary. The Board may obtain training in Corporate Governance on an individual basis.

Performance Evaluation

The Board has not established a formal interview process for the evaluation of its own performance and that of the individual Directors as it does not consider this to be appropriate having regard to the non-executive role of the Directors and the significant outsourcing of services to external providers. The independent non-executive Directors undertake on an annual basis an appraisal in relation to their oversight and monitoring of the performance of the Investment Adviser and other key service providers. In addition the Directors undertake, on an annual basis, an oral assessment of the effectiveness of the Board as a whole

Board Committees

Audit Committee

The Board has established an Audit Committee which consists of the three independent non-executive Directors of the Company. Simon Baker is Chairman of the Audit Committee. The Report of the Audit Committee can be found on page 23.

Report of the Directors & Governance continued

Corporate Governance continued

Management Engagement Committee

The Board has established a Management Engagement Committee which consists of the three independent non-executive Directors of the Company. Michael Naylor is Chairman of the Management Engagement Committee. The function of this Committee is to ensure that the Manager complies with the terms of the Investment Management Agreement and that the provisions of the Investment Management Agreement follow industry practice and remain competitive and in the best interests of shareholders.

Nomination Committee

The Board has established a Nomination Committee which consists of the three independent non-executive Directors of the Company. Polly Courtice is Chairman of the Nomination Committee. The function of this Committee is to evaluate the appointment of additional or replacement Directors against the requirements of the Company's business and the need to have a balanced Board. The Nomination Committee considers job specifications and assesses whether candidates have the necessary skills and time available to devote to the Company's business. All newly appointed Directors receive any necessary training and induction.

The Board has not established a Remuneration Committee; this function is performed by the Board.

Terms of Reference of all Board Committees are published on the Company's website www.jupiteram.com/JGC.

Report of the Directors & Governance continued

Report of the Audit Committee

Role of the Audit Committee

The Audit Committee meets at least annually to consider the financial reporting by the Company, the internal controls and relations with the Company's external Auditor. In addition, it reviews the independence and objectivity of the Auditor and the effectiveness of the audit process, the quality of the audit engagement partner and the audit team and consider the reappointment of the auditor. It will also provide an opinion as to whether the Annual Report, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy.

Composition

The Audit Committee consists of the three independent non-executive Directors of the Company. Simon Baker is Chairman of the Audit Committee

Auditors and Audit Tenure

The Company's current independent Auditor, haysmacintyre, was appointed by the Board on 25 April 2006. As part of its review of the continuing appointment of the auditor, the Audit Committee considers the length of tenure of the audit firm, its fees and independence from the AIFM, the Investment Adviser along with any matters raised during each audit. The fees paid to haysmacintyre in respect of audit services and non-audit services are disclosed in Note 5 to the Accounts on page 35.

Under the Ethical Standard as issued by the Financial Reporting Council ('FRC') the Audit Committee will undertake a formal tendering process for year ended 31 March 2018.

Significant Accounting Matters

During its review of the Company's accounts for the year ended 31 March 2017, the Audit Committee considered the following significant issues, including the consideration of principal risks and uncertainties in light of the Company's activities and issues communicated by the Auditor during its review, all of which were satisfactorily addressed:

Issue considered How the issue was addressed · Valuation of the investment · Review of reports from the Investment Adviser and portfolio Custodian Compliance with section 1158 · Review of portfolio holdings of the Corporation Tax Act reports and revenue forecasts 2010 to ensure compliance criteria is met · Consideration of methodology · Calculation of performance and management fees used to calculate fees, matched against the criteria set out in the Investment Management Agreement · Review of the investment Statement of going concern portfolio, risks and uncertainties, projected cash flow and forecast revenue

Auditor Effectiveness & Independence

Auditor effectiveness is assessed by means of the auditors' direct engagement with the board at Audit Committee meetings and also

by reference to feedback from the AIFM, Investment Adviser and its employees who have direct dealings with the Auditor during the annual audit of the Company.

The Audit Committee concluded that the Auditor continues to be independent of the Company and the Investment Adviser and that their reappointment be proposed at the Annual General Meeting.

Disclosure of Information to the Auditor

The Directors are not aware of any relevant audit information of which the Company's Auditor is unaware. The Directors also confirm that they have taken all the steps required of a company director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Non-Audit Services

The Audit Committee has adopted a policy on the engagement of the Company's Auditor to supply non-audit services to the Company. haysmacintyre was paid £Nil (including VAT) for non-audit services during the year under review (2016: £1,200).

The Committee ensures that auditor objectivity and independence are safeguarded by requiring pre-approval by the Committee for all non-audit services provided to the Company, which takes into consideration:

- confirmation from the Auditor that they have adequate arrangements in place to safeguard their objectivity and independence in carrying out such work, within the meaning of the regulatory and professional requirements to which they are subject;
- the fees to be incurred, relative to the audit fees;
- · the nature of the non-audit services; and
- whether the Auditor's skills and experience make it the most suitable supplier of such services and whether they are in a position to provide them.

The Committee has reviewed the non-audit services performed by haysmacintyre in the year and has concluded that the policy has been applied and their independence and objectivity has not been impaired as a result. After due and careful consideration, taking account of the processes above, the Committee has recommended to the Board that haysmacintyre be reappointed at the AGM to be held on Tuesday 5 September 2017.

Statement in Respect of the Annual Report & Accounts

Having taken all available information into consideration, and having discussed the content of the Annual Report & Accounts with the AIFM, Investment Adviser, Company Secretary and other third party service providers, the Audit Committee has concluded that the Annual Report & Accounts for the year ended 31 March 2017, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the Company's performance, business model and strategy.

For and on behalf of the Audit Committee

Simon Baker

Chairman of the Audit Committee 30 June 2017

Report of the Directors & Governance continued

Directors' Remuneration Report and Policy

Introduction

The Board is pleased to present the Company's annual remuneration report for the year ended 31 March 2017 in accordance with Schedule 8 of The Large and Medium-sized Companies and Groups (Accounts and Reports) (Amendment) regulations 2013.

The law requires the Company's auditor to audit certain of the disclosures provided. Where disclosures have been audited, they are indicated as such. The Independent Auditor's opinion is included in their report on pages 27 and 28.

Statement by the Chairman

The Board's policy on remuneration is set out below. It must be noted that it is essential that fees payable to Directors should reflect the time spent on the Company's affairs, and should be sufficient to attract and retain individuals of high calibre with suitable knowledge and experience.

The Directors of the Company are non-executive and by way of remuneration receive an annual fee, payable quarterly in arrears.

During the year, Directors' fees were as follows:

Chairman of the Board	£20,000
Chairman of the Audit Committee	£16,000
Director	£15,000

Details of the total emoluments paid to Directors during the year to 31 March 2017 are provided in the Annual Report on Remuneration.

The Company does not award any other remuneration or benefits to the Chairman or Directors. There are no bonus schemes, pension schemes, share option or long-term incentive schemes in place for the Directors.

Directors' Remuneration Policy

The remuneration policy of the Company was approved by shareholders at the AGM held on 2 September 2015.

The remuneration policy as set out below will apply until 1 September 2018 (being three years from the date of shareholder approval of the policy) unless renewed, varied or revoked by shareholders at a general meeting.

The Company's remuneration policy is that fees payable to Directors are commensurate with the amount of time Directors are expected to spend on the Company's affairs, whilst seeking to ensure that fees are set at an appropriate level so as to enable candidates of a sufficient calibre to be recruited. The Company's Articles of Association states the maximum aggregate amount of fees that can be paid to Directors in any one year. This is currently set at £150,000 per annum and shareholder approval is required for any changes to this.

Each director is entitled to a base fee; the Chairman of the Board is paid a higher fee than the other Directors, to reflect the additional work required to be carried out in this role. The Chairman of the Audit Committee also receives a higher fee on the same basis.

The Board has not established a Remuneration Committee and any review of the Directors' fees is undertaken by the Board as whole and has regard to the level of fees paid to non-executive Directors of other investment companies of equivalent size.

Directors' Service Contracts

No Director has a contract of service with the Company. Accordingly, the Directors are not entitled to any compensation in the event of termination of their appointment or loss of office, other than the payment of any outstanding fees.

The Board does not consider it appropriate that Directors should be appointed for a specific term. Directors who have served in excess of nine years are subject to annual re-election. Any new Director appointed would be subject to election by shareholders at the next AGM following their appointment.

The terms and conditions of Directors' appointments are set out in formal letters of appointment.

Director	Date of Appointment	Due date for Re-election
M Naylor	3 July 2009	Annually
S Baker	31 July 2015	Annually
Dame P Courtice	24 April 2006	Annually

Annual Report on Remuneration

A single figure for the total remuneration of each Director is set out in the table below for the year ended 31 March 2017 and 31 March 2016 respectively:

On behalf of the Board and in accordance with Part 2 of Schedule 8 of the Large and Medium-sized Companies and Groups (Accounts and Reports) (Amendment) Regulations 2013, I confirm that the Directors' Remuneration Report and Policy summarises, for the year ended 31 March 2017, the review undertaken and the decisions made regarding the fees paid to the Board, and the future remuneration policy of the Company which is to be approved by shareholders.

By Order of the Board **Michael Naylor** Chairman 30 June 2017

Report of the Directors & Governance continued

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and financial statements in accordance with applicable United Kingdom law and those International Financial Reporting Standards ("IFRS") as adopted by the European Union.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the return or loss of the company for that period.

In preparing those financial statements, the Directors are required to:

- (a) select suitable accounting policies in accordance with IAS 8
 Accounting Policies, Changes in Accounting Estimates and Errors and then apply them consistently;
- (b) present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- (c) provide additional disclosures when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance;
- (d) state that the Company has complied with IFRS, subject to any material departures disclosed and explained in the financial statements; and
- (e) make judgements and estimates that are reasonable and prudent.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website www.jupiteram.com/JGC. The work carried out by the Auditor does not include consideration of the maintenance and integrity of the website and accordingly the Auditor accepts no responsibility for any changes that have occurred to the financial statements when they are presented on the website.

The financial statements are published on www.jupiteram.com/JGC, which is a website maintained by Jupiter Asset Management Limited.

Visitors to the website need to be aware that legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Strategic Report, Directors' Report, Directors' Remuneration Report and Statement of Corporate Governance that comply with that law and those regulations.

Each of the Directors, who are listed on page 16 of this report, confirm to the best of their knowledge that:

- (a) the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company;
- (b) the report includes a fair view of the development and performance of the business and the position of the Company together with a description of the principal risks and uncertainties that the Company faces; and
- (c) that in the opinion of the Board, the Annual Report and Accounts taken as a whole, is fair, balanced and understandable and it provides the information necessary to assess the company's performance, business model and strategy.

So far as each Director is aware at the time the report is approved:

- (a) there is no relevant audit information of which the Company's auditors are unaware; and
- (b) the Directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

By Order of the Board **Michael Naylor** Chairman 30 June 2017

Independent Auditor's Report to the Members of Jupiter Green Investment Trust PLC

Opinion on financial statements of Jupiter Green Investment Trust Plc

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2017 and of its return for the year then ended;
- have been properly prepared in accordance with IFRSs adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

The financial statements comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity, the Cash Flow Statement and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

An overview of the scope of our audit

Our audit was scoped by obtaining an understanding of the company and its environment, including internal control, and assessing the risks of material misstatement.

As all of the accounting is done by service organisations, we obtained an understanding of how the company uses service organisations in its operations and evaluated the design and implementation of relevant controls at the company that relate to the services provided by service organisations. We reviewed the latest ISAE 3402 reports from the service organisations and performed the audit at Jupiter Asset Management Limited's offices and obtained specific information and explanations directly from them that we needed to conduct our audit.

Based on that understanding our audit was focussed on the key risks as described below.

Our assessment of risks of material misstatement

We identified the following risks of material misstatement that had the greatest effect on the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team:

Risk Our response Valuation of investments Investments represent the most significant number on the balance sheet and are the main driver of the Company's performance. There is a risk that the investments are incorrectly valued. Our response We agreed a sample of investment valuations directly with independent pricing sources.

Performance fees

There is a risk that the performance fees are not calculated correctly in accordance with the investment management agreement.

We recalculated the performance fee calculations for the year with reference to contractual arrangements and agreed the calculation inputs to source data.

Our application of materiality

We define materiality as the magnitude of misstatement that could reasonably be expected to influence the readers and the economic decisions of the users of the financial statements. We use materiality both in planning our audit and in evaluating the results of our work.

We determined planning materiality for the company to be £0.335 million, which is 1% of gross assets. Overall performance materiality (i.e. our tolerance for misstatement in an individual account or balance) for the company was 75% of materiality, namely £0.251 million.

Given the sensitivity of revenue, directors' fees, performance fee and management fees in the Income Statement we have applied a separate performance materiality of £0.01 million for these items.

We have agreed to report to the Audit Committee all audit differences in excess of £0.017 million, as well as differences below that threshold that, in our view warrant reporting on qualitative grounds. We also report to the Audit Committee on disclosure matters that we identified when assessing the overall presentation of the financial statements.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements and the Strategic Report and Directors' Report has been prepared in accordance with applicable legal requirements;
- in light of our knowledge and understanding of the Company and its environment obtained in the course of the audit; we have not identified material misstatements in the Strategic Report and the Directors' Report; and
- the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006

Matters on which we are required to report by exception

We have nothing to report in respect of the following:

Under the ISAs (UK and Ireland), we are required to report to you if, in our opinion, information in the annual report is:

- materially inconsistent with the information in the audited financial statements; or
- apparently materially incorrect based on, or materially inconsistent with, our knowledge of the company acquired in the course of performing our audit; or
- · otherwise misleading.

In particular, we are required to consider whether we have identified any inconsistencies between our knowledge acquired during the audit and the directors' statement that they consider the annual report is fair, balanced and understandable and whether the annual report appropriately discloses those matters that we communicated to the audit committee which we consider should have been disclosed.

Independent Auditor's Report to the Members of Jupiter Green Investment Trust PLC continued

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Under the Listing Rules we are required to review:

- the directors' statement, set out on page 18, in relation to going concern; and
- the part of the Corporate Governance Statement relating to the company's compliance with the provisions of the UK Corporate Governance Code specified for our review.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on page 26, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

The total column of this statement is the income statement of the Company, prepared in accordance with IFRS. The supplementary revenue return and capital return columns are both prepared under guidance produced by the Association of Investment Companies (AIC). All items in the above statement derive from continuing operations.

No operations were acquired or discontinued during the year.

All income is attributable to the equity holders of Jupiter Green Investment Trust PLC. There are no minority interests.

Accounts continued

Notes to the Accounts for the year ended 31 March 2017

1. Accounting policies

The Accounts comprise the financial results of the Company for the year to 31 March 2017. The Accounts are presented in pounds sterling, as this is the functional currency of the Company. The Accounts were authorised for issue in accordance with a resolution of the Directors on 30 June 2017. All values are rounded to the nearest thousand pounds (£'000) except where indicated.

The Accounts have been prepared in accordance with International Financial Reporting Standards (IFRS), which comprise standards and interpretations approved by the International Accounting Standards Board (IASB) and International Accounting Standards Committee (IASC), as adopted by the European Union (EU).

Where presentational guidance set out in the Statement of Recommended Practice (SORP) for Investment Trusts issued by the Association of Investment Companies (AIC) in November 2014 is consistent with the requirements of IFRS, the directors have sought to prepare the financial statements on a basis compliant with the recommendations of the SORP.

The Board continues to adopt the going concern basis in the preparation of the financial statements.

(a) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business.

Income includes dividends from investments quoted ex-dividend on or before the date of the Statement of Financial Position.

Dividends receivable from equity shares are taken to the revenue return column of the Statement of Comprehensive Income.

(b) Presentation of Statement of Comprehensive Income

In order to better reflect the activities of an investment trust company and in accordance with guidance issued by the Association of Investment Companies (AIC), supplementary information which analyses the Statement of Comprehensive Income between items of a revenue and capital nature has been presented alongside the statement. In accordance with the Company's Articles of Association, net capital returns may not be distributed by way of dividend.

An analysis of retained earnings broken down into revenue (distributable) items and capital (non-distributable) items is given in Note 17. Investment Management fees are charged 90 per cent. to capital and 10 per cent. to revenue. All other operational costs including administration expenses and finance costs (but with the exception of any investment performance fees which are charged to capital) are charged to revenue.

(c) Basis of valuation of investments

Investments are recognised and derecognised on a trade date where a purchase and sale of an investment is under contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at cost, being the consideration given.

All investments are classified as held at fair value through profit or loss. All investments are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income in the period in which they arise. The fair value of listed investments is based on their quoted bid price at the reporting date without any deduction for estimated future selling costs.

Foreign exchange gains and losses on fair value through profit and loss investments are included within the changes in the fair value of the investments.

For investments that are not actively traded and/or where active stock exchange quoted bid prices are not available, fair value is determined by reference to a variety of valuation techniques. These techniques may draw, without limitation, on one or more of: the latest arm's length traded prices for the instrument concerned; financial modelling based on other observable market data; independent broker research; or the published accounts relating to the issuer of the investment concerned.

(d) Cash and cash equivalents

Cash comprises cash in hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to insignificant risks of changes in value.

(e) Foreign currencies

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing on the dates of the transactions. At the date of each Statement of Financial Position, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on that date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Gains and losses arising on retranslation are included in net profit or loss for the year, except for exchange differences arising on non-monetary assets and liabilities where the changes in fair value are recognised directly in equity.

(f) Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Statement of Comprehensive Income because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the date of the Statement of Financial Position.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Investment trusts which have approval under Section 1158 of the Income and Corporation Taxes Act 2010 ('ICTA') are not liable for taxation of capital gains.

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

1. Accounting policies continued

(g) Special reserve

The reserve is a transfer from the share premium account.

(h) Accounting developments

The following standards, amendments and interpretations are applicable to the Company. They have been published by IASB but are not yet effective for year ended 31 March 2017:

International Accounting Standards (IAS/IFRS's)

IFRS 9 Financial Investments Classification and Measurement

Effective date: 1 January 2018

Amendments to IAS 7 Statement of Cashflows

Effective date: 1 January 2017

The Directors anticipate that the adoption of the above standards and interpretations in future periods will have no material impact on the financial statements of the Company. The Company intends to adopt the standards in the reporting period when they become effective.

2. Significant accounting judgements, estimates and assumptions

Management have not applied any accounting judgements to this set of Financial Statements or those of the prior period.

3. Income

	Year	Year
	ended	ended

6. Finance costs

	Ye	ar ended 31 M	arch 2017	Year ended 31 March 2		
	Revenue £'000	Capital £'000	Total £'000	Revenue £'000	Capital £'000	Total £'000
Non-utilisation fee	9	-	9	10	_	10
	9	_	9	10	_	10

Finance costs are in respect of the costs incurred for non-utilisation during the year of the bank loan facility.

There was no drawdown of the loan facility as at 31 March 2017 (2016: Nil).

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

7. Taxation

	Year ended 31 March 2017			Year ended 31 March 20		
	Revenue	Capital	Total	Revenue	Capital	Total
Tax on ordinary activities	£'000	£'000	£'000	£'000	£'000	£'000
Overseas tax	32	_	32	36	_	36

The tax assessed for the year equates to that resulting from applying the standard rate of corporation tax in the UK of 20% (2016: 20%). The calculation is explained below:

	Year	Year
	ended	ended
	31 March	31 March
	2017	2016
	£'000	£'000
Return on ordinary revenue activities before taxation	289	237
Corporation tax at 20% (2016: 20%)	58	48
Effects of		
Exempt dividend income	(119)	(108)
Unrelieved tax losses and other deductions arising in the period	115	111
Capital expenses deductible for tax purposes	(54)	(54)
Expenses not deductible for tax purposes	_	3
Foreign tax suffered	32	36
Current tax charge for the year	32	36

There are unrelieved management expenses at 31 March 2017 of £6,070,000 (2016: £5,495,000) but the related deferred tax asset at 19 per cent. has not been recognised. This is because the Company is not expected to generate taxable income in a future period in excess of the deductible expenses of that future period and, accordingly, it is unlikely that the Company will be able to reduce future tax liabilities through the use of existing unrelieved expenses.

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

8. Earnings per Ordinary share

The earnings/(loss) per Ordinary share figure is based on the net gain for the year of £7,171,000 (2016: net loss £776,000) and on 21,382,221 (2016: 24,111,881) Ordinary shares, being the weighted average number of Ordinary shares in issue during the year.

The earnings per Ordinary share figure detailed above can be further analysed between revenue and capital, as below.

	Year	Year
	ended	ended
	31 March	31 March
	2017	2016
	£'000	£'000
Net revenue profit	257	201

12. Derivatives and other financial instruments

Background

The Company's financial instruments comprise securities and other investments, cash balances and debtors and creditors that arise directly from its operations, for example, in respect of sales and purchases awaiting settlement and debtors for accrued income. The numerical disclosures below exclude short-term debtors and creditors.

During the year under review, the Company had little exposure to credit, cashflow and interest rate risks.

The principal risks the Company faces in its portfolio management activities are:

- foreign currency risk
- · market price risks i.e. movements in the value of investment holdings caused by factors other than interest rate or currency movement

The Investment Adviser's policies for managing these risks are summarised below and have been applied throughout the year.

Policy

(a) Foreign Currency Risk

A proportion of the Company's portfolio is invested in overseas securities and their sterling value can be significantly affected by movements in foreign exchange rates. The Company does not normally hedge against foreign currency movements affecting the value of the investment portfolio, but takes account of this risk when making investment decisions.

Foreign currency sensitivity

The following table illustrates the sensitivity of the return after tax for the year to exchange rates for the Pound Sterling against the US Dollar, Euro, Japanese Yen, Canadian Dollar, Danish Krone, Swedish Krona, Norwegian Krone and Hong Kong Dollar. It assumes the following changes in exchange rates:

These percentages have been determined based on market volatility in exchange rates over the previous twelve months. The sensitivity analysis is based on the Company's foreign currency financial instruments held at the date of each Statement of Financial Position.

If sterling had weakened against the currencies below this would have the following effect:

			2017			2016
	Impact on revenue return £'000	Impact on capital return £'000	Total £'000	Impact on revenue return £'000	Impact on capital return £'000	Total £'000
US Dollar	(2)	2,194	2,192	(1)	1,284	1,283
Euro	-	567	567	_	431	431

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

12. Derivatives and other financial instruments continued

If sterling had strengthened against the currencies below this would have the following effect:

			2017			2016
	Impact on revenue return £'000	Impact on capital return £'000	Total £'000	Impact on revenue return £'000	Impact on capital return £'000	Total £'000
US Dollar	2	(2,194)	(2,192)	1	(1,284)	(1,283)
Euro	_	(567)	(567)	_	(431)	(431)
Japanese Yen	1	(751)	(750)	_	(530)	(530)
Canadian Dollar	_	(83)	(83)	_	(101)	(101)
Danish Krone	_	(214)	(214)	_	(209)	(209)
Swedish Krona	_	(29)	(29)	_	(45)	(45)
Norwegian Krone	_	(118)	(118)	_	(99)	(99)
Hong Kong Dollar	_	(83)	(83)	_	(87)	(87)
	3	(4,039)	(4,036)	1	(2,786)	(2,785)

In the opinion of the Directors, the above sensitivity analyses are not representative of the year as a whole, since the level of exposure changes frequently.

(b) Market Price Risk

By the very nature of its activities, the Company's investments are exposed to market price fluctuations. Further information on the investment portfolio and investment policy is set out in the Investment Adviser's Review.

A portion of the financial assets of the Company are denominated in currencies other than sterling with the result that the Statement of Financial Position and total return can be significantly affected by currency movements.

Other price risk sensitivity

The following illustrates the sensitivity of the return after taxation for the year and the equity to an increase or decrease of 20 per cent. in the fair value of the Company's equities. This level of change is considered to be reasonably possible based on observation of market conditions during the year. The sensitivity analysis is based on the Company's equities at each Financial Position Statement date.

The impact of a 20 per cent. increase in the value of investments on the revenue return as at 31 March 2017 is a decrease of £6,000 (2016: £6,000) and on the capital return is an increase of £7,202,000 (2016: £6,166,000).

The impact of a 20 per cent. fall in the value of investments on the revenue return as at 31 March 2017 is an increase of £6,000 (2016: £6,000) and on the capital return is a decrease of £7,619,000 (2016: £6,527,000).

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

12. Derivatives and other financial instruments continued

(c) Interest rate risk

Interest rate movements may affect:

- the fair value of investments of any fixed interest securities
- the level of income receivable from any floating interest-bearing securities and cash at bank and on deposit, and
- the interest payable on the Company's floating interest term loans

The financial assets (excluding short-term debtors and creditors) consist of:

			2017			2016
	Floating rate £'000	Non- interest bearing £'000	Total £'000	Floating rate £'000	Non- interest bearing £'000	Total £'000
Sterling	35	7,555	7,590	564	6,593	7,157
US Dollar	74	14,725	14,799	_	12,935	12,935
Euro	_	5,713	5,713	3	4,342	4,345
Japanese Yen	_	5,039	5,039	_	3,559	3,559
Danish Krone	_	2,159	2,159	_	2,103	2,103
Norwegian Krone	2	1,193	1,195	_	997	997
Canadian Dollar	(1)	832	831	_	1,021	1,021
Swedish Krona	_	576	576	_	455	455
Hong Kong Dollar	_	560	560	_	881	881
	110	38,352	38,462	567	32,886	33,453

The floating rate assets consist of cash deposits at call. Sterling cash deposits at call earn interest at floating rates based on daily Sterling Overnight Index Average (SONIA) rates.

The non-interest bearing assets represent the equity element of the investment portfolio at 31 March. However, the amounts are not representative of the exposure to foreign currency risk during the year as levels of monetary foreign currency exposure change significantly throughout the year.

Fair Value hierarchy

IFRS 13 'Fair Value Measurement' requires an entity to classify fair value measurements using fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy shall have the following levels:

Level 1 reflects financial instruments quoted in an active market.

Level 2 reflects financial instruments whose fair value is evidenced by comparison with other observable current market transactions in the same instrument or based on a valuation technique whose variables includes only data from observable markets.

Level 3 reflects financial instruments whose fair value is determined in whole or in part using a valuation technique based on assumptions that are not supported by prices from observable market transactions in the instrument and not based on available observable market data.

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

12. Derivatives and other financial instruments continued

Fair Value hierarchy continued

The Financial assets measured at fair value in the Statement of Financial Position are grouped into the fair value hierarchy as follows:

				2017				2016
	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000	Level 1 £'000	Level 2 £'000	Level 3 £'000	Total £'000
Equity Investments	38,352	_	_	38,352	32,866	_	20	32,886
	38,352	-	-	38,352	32,866	-	20	32,886

A reconciliation of fair value measurements in Level 3 is set out in the following table:

	31 March 2017	31 March 2016	
	£'000	£'000	
Opening balance	20	20	
Fair value movements	(20)	_	
Closing balances	-	20	

(d) Interest rate sensitivity

As interest rates for any short-term loans are fixed at the commencement of the loan, only cash at call are subject to interest rate movement. All such deposits at call earn interest at a daily rate. Therefore, if a sensitivity analysis was performed by increasing or decreasing the interest rates applicable to the Company's cash balances held at each reporting date, with all other variables held constant, there would be no material change to the profit after taxation or net assets for the year.

(e) Credit and Counterparty Risk

Credit Risk is the exposure to loss from the failure of a counterparty to deliver securities or cash for acquisitions or to repay deposits. The Company manages credit risk by using brokers from a database of approved brokers who have undergone rigorous due diligence tests by the Manager's Risk Management Team and by dealing through JAM with banks approved by the Financial Conduct Authority. Any derivative positions are marked to market and exposure to counterparties is monitored on a daily basis by the Manager; the Board of Directors reviews it on a quarterly basis. The maximum exposure to credit risk as at 31 March 2017 was £240,000 (2016: £652,000). The calculation is based on the Company's credit exposure as at 31 March 2017 and may not be representative of the year as a whole.

(f) Liquidity Risk

Liquidity risk is not considered significant. All liabilities are payable within three months. The Company's assets comprise mainly readily realisable securities which can be sold to meet funding requirements if necessary. Short-term flexibility is achieved through the use of short-term borrowings.

13. Called-up share capital

		2017		2016
	Number	£	Number	£
Allotted, issued and fully paid				
Ordinary shares of 0.1p each	33,724,958	33,725	33,724,958	33,725

 $^{21{,}955 \}text{ new Ordinary shares were issued from Treasury on 4 April 2016 at a price of } 152.35 p \text{ per share.}$

Between 7 April 2016 and 29 March 2017 1,292,851 Ordinary shares were repurchased into Treasury at prices between 136.5p and 173.0p per share

12,834,010 Ordinary shares were held in Treasury at 31 March 2017 (31 March 2016: 11,563,114).

At end of year	363	(15,934)	(15,571)	244	(20,872)	(20,628)

Dividends are paid from revenue reserves.

Accounts continued

Notes to the Accounts for the year ended 31 March 2017 continued

18. Net Asset Value per Ordinary share

The Net Asset Value per Ordinary share is based on the net assets attributable to the equity shareholders of £38,509,000 (2016: £33,418,000) and on 20,890,948 (2016: 22,161,844) Ordinary shares, being the number of Ordinary shares in issue at the year end, excluding Treasury shares.

	2017	2016
	£'000	£'000
Undiluted		
Ordinary shareholders' funds	38,509	33,418
Number of Ordinary shares in issue	20,890,948	22,161,844
Net asset value per Ordinary share (pence)	184.33	150.79
Diluted		
Ordinary shareholders' funds assuming exercise of Subscription shares	41,692	36,795
Number of potential Ordinary shares in issue	22,980,043	24,378,028
Net asset value per Ordinary share (pence)	181.43	150.79

The diluted net asset value per Ordinary share assumes that all outstanding dilutive Subscription shares (2017: 2,089,095, 2016: 2,216,184) were converted into Ordinary shares at the year end.

19. Reconciliation of net cash outflow from operating activities

	2017	2016
	£'000	£'000
Net return/(loss) before finance costs and taxation	7,214	(730)
(Gain)/loss on investments at fair value through profit or loss	(7,184)	703
(Increase)/decrease in prepayments and accrued income	(45)	9
Decrease in accruals and other creditors	(37)	(20)
Foreign exchange loss	-	6
Net cash outflow from operating activities	(52)	(32)

20. Analysis of changes in net funds

Cash at bank	567	(457)	-	110

Notes to the Accounts for the year ended 31 March 2017 continued

21. Related parties

Jupiter Unit Trust Managers Limited ('JUTM'), the Alternative Investment Fund Manager, is a company within the same group as Jupiter Asset Management Limited ('JAM'), the Investment Adviser. JUTM receives an investment management fee as set out below.

JUTM is contracted to provide investment management services to the Company subject to termination by not less than twelve months' notice by either party. The fee is payable monthly being one twelfth of 0.85 per cent. up to 31 December 2016 and then 0.75 per cent. with effect from 1 January 2017 of the net assets of the Company after deduction of the value of any Jupiter managed investments.

The management fee payable to JUTM for the period 1 April 2016 to 31 March 2017 was £297,731 (2016: £297,419) with £23,853 (2016: £68,427) outstanding at year end.

JUTM is also entitled to an investment performance fee which is based on the outperformance of the Net Asset Value per Ordinary Share over the total return on the Benchmark Index in an accounting year. Any performance fee payable will equal the time weighted average number of Ordinary shares in issue during the period multiplied by 15 per cent. of the amount by which the increase in the Net Asset Value per Ordinary Share (plus any dividends per Ordinary Share paid or payable and any accrual for unpaid performance fees for the period) exceeds the total return on the Benchmark Index. The performance fee will only be payable if the Net Asset Value per Ordinary Share (adjusted as described above) exceeds the highest of (i) the Net Asset Value per Ordinary Share on the last business day of the previous performance period; (ii) the Net Asset Value per Ordinary share on the last day of a performance period in respect of which a performance fee was last paid: and (iii) 100p. The total amount of management fees and any performance fee payable in respect of one accounting period is limited to 1.75 per cent. of the Net Asset Value of the Company on the last business day of the relevant performance period. There was no performance fee payable for the year ended 31 March 2017 (2016: £Nil).

The Company has invested from time to time in funds managed by Jupiter Investment Management Group Limited or its subsidiaries. There was one such investment with a market value of £345,000 (31 March 2016: Nil). No investment management fee is payable by the Company to JAM in respect of the Company's holdings in investment trusts, open-ended funds and investment companies in respect of which Jupiter Investment Management Group Limited, or any subsidiary undertaking of Jupiter Investment Management Group Limited, receives fees as investment manager or investment adviser.

22. Contingent liabilities and capital commitments

There were no contingent liabilities or capital commitments at 31 March 2017 (2016: Nil).

23. Post balance sheet events

Since the year end (1 April to 27 June 2017) an additional 110,000 Ordinary shares were repurchased to be held in Treasury for prices between 172.50p and 180.00p per share.

On 7 April 2017 subscriptions were received from shareholders resulting in the allotment of 554,321 new ordinary shares.

Investor Information

The Company currently conducts its affairs so that its shares can be recommended by Independent Financial Advisers to ordinary retail investors in accordance with the FCA's rules in relation to non-mainstream investment products and intends to continue to do so for the foreseeable future. The Company's shares are excluded from the FCA's restrictions which apply to non-mainstream investment products because they are shares in an investment trust.

Performance Updates

The Company publishes a monthly factsheet which contains key information about its performance, investment portfolio and pricing. The factsheets together with electronic copies of the most recent annual and half-yearly reports and accounts are available for download from www.jupiteram.com/JGC. Should you wish to be added to an email distribution list for future editions of the monthly factsheet, please send an email to investmentcompanies@jupiteram.com. For investors who do not have access to the internet, these documents are also available on request from Jupiter's Customer Services Team on 0844 620 7602.

Further information about the Company is also available from third party websites such as www.morningstar.co.uk and www.theaic.com.

Dividend Tax Allowance

With effect from 6 April 2016 the dividend tax credit was replaced by an annual tax-free dividend allowance. Dividend income in excess of this allowance will be taxed according to your personal income tax bracket. The Company's Registrar will continue to provide shareholders with confirmation of dividends paid shareholders should retain such confirmations to enable them to calculate and report total dividend income received. Shareholders should note that it is their sole responsibility to report any dividend income in excess of their annual tax-free allowance to HMRC.

Further information on the dividend tax allowance can be obtained from the HMRC website at: https://www.gov.uk/government/publications/income-tax-changes-to-dividend-taxation

Notice for Annual General Meeting

This Notice of Meeting is an important document. If you are in any doubt as to what action to take, you should consult an appropriate independent adviser.

Notice is hereby given that the Annual General Meeting of Jupiter Green Investment Trust PLC will be held at the offices of Jupiter Asset Management Limited, The Zig Zag Building, 70 Victoria Street, London SW1E 6SQ on Tuesday 5 September 2017 at 11:45 a.m. for the following purposes:

ORDINARY BUSINESS

To consider and, if thought fit, pass the following as Ordinary Resolutions:

- 1. That the Report of the Directors and the audited Accounts for the year ended 31 March 2017 be received.
- 2. That the Directors' Remuneration Report for the year ended 31 March 2017 be approved.
- 3. That a final dividend of 1.20p per Ordinary share be paid in respect of the financial year ended 31 March 2017.
- 4. That Mr Simon Baker be re-elected as a Director of the Company.
- 5. That Dame Polly Courtice be re-elected a Director of the Company.
- 6. That Mr Michael Naylor be re-elected a Director of the Company.
- 7. That haysmacintyre be re-appointed as auditors of the Company.
- 8. That the Directors be authorised to determine the remuneration of the auditors.

SPECIAL BUSINESS

To consider, and if thought fit, to pass Resolutions 9 and 10 as Ordinary Resolutions and Resolutions 11, 12 and 13 as Special Resolutions:

Ordinary Resolution:

- 9. That the Company continue in being as an Investment Trust.
- 10. That the Directors of the Company be and they are hereby generally and unconditionally authorised for the purposes of Section 551 of the Companies Act 2006 (the 'Act'), in substitution for and to the exclusion of any existing authority previously conferred on the Directors under Section 551 of the Act, to allot shares in the capital of the Company ('shares') up to a maximum aggregate nominal amount of £7,111.76 provided that this authority shall expire at the conclusion of the next Annual General Meeting of the Company after the passing of this resolution save that the Company may, before such expiry, make an offer or agreement which would or might require shares to be allotted after such expiry and the Directors may allot shares in pursuance of such an offer or agreement as if the authority hereby conferred had not expired.

Special Resolutions:

- 11. That the Directors of the Company be and are hereby granted power pursuant to Section 570 and/or Section 573 of the Companies Act 2006 ('the Act') to allot equity securities (within the meaning of Section 560 of the Act) for cash either pursuant to the authority conferred by Resolution 10 or by way of a sale of treasury shares, as if Section 561(1) of the Act did not apply to any such allotment, provided that this power shall be limited to:
 - (a) the allotment of equity securities up to an aggregate nominal amount of £2,133.53; and

(b) in addition to the authority referred to in (a) above, in connection with an offer of equity securities by way of a rights issue or open offer to ordinary shareholders in proportion as nearly as may be practicable to their existing holdings subject to such limits or restrictions or other arrangements as the Directors may deem necessary or expedient to deal with any treasury shares, fractional entitlements or securities represented by depositary receipts, record dates, legal, regulatory or practical problems in, or under the laws or requirements of, any territory or the requirements of any regulatory body or stock exchange or any other matter,

provided that this authority shall expire at the conclusion of the next Annual General Meeting of the Company after the passing of this resolution save that the Company may, before such expiry, make an offer or agreement which would or might require equity securities to be allotted after such expiry and the Directors may allot equity securities in pursuance of such an offer or agreement as if the authority hereby conferred had not expired.

- 12. That the Company be and is generally and unconditionally authorised in accordance with Section 701 of the Companies Act 2006 (the 'Act') to make one or more market purchases (within the meaning of Section 693 of the Act) of Ordinary shares provided that:
 - (a) the maximum number of shares that may be purchased is 3,198,156 Ordinary shares, being 14.99 per cent. of the issued number of Ordinary shares at 27 June 2017 or, if lower, such number as is equal to 14.99 per cent. of the issued number of Ordinary shares at the date of passing the resolution;
 - (b) the minimum price which may be paid shall be 0.1 pence per Ordinary share;
 - (c) the maximum price (excluding the expenses of such purchase) which may be paid for each Ordinary share shall be the higher of:
 - (i) 105 per cent. of the average middle market quotations for such Ordinary share taken from the London Stock Exchange Daily Official List for the five business days immediately preceding the day on which such share is purchased; and
 - (ii) the higher of the price of the last independent trade and the highest current independent bid as stipulated by Article 5(1) of Commission Regulation EC 22 December 2003 implementing the Market Abuse Directive as regards exemptions for buyback programmes and stabilisation of financial instruments (No. 2273/2003); and
 - (d) unless renewed, the authority shall expire at the conclusion of the next Annual General Meeting of the Company after the passing of this resolution save that the Company may, prior to such expiry, enter into a contract to purchase shares which will or may be completed or executed wholly or partly after such expiry.
- 13. That a General Meeting other than an Annual General Meeting may be called on not less than 14 clear days' notice.

By Order of the Board

Jupiter Asset Management Limited Company Secretary 30 June 2017

Notes for Annual General Meeting

- 1. A Member entitled to attend and vote may appoint a proxy or proxies to attend, speak and vote instead of him or her. A proxy need not be a member of the company. A form of proxy is enclosed which, if used, must be lodged at the Company's Registrars, Capita Asset Services, PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF not less than forty-eight hours before the meeting. To appoint more than one proxy you may photocopy this form. You may appoint a person other than the Chairman as your proxy. Please indicate the proxy holder's name and the number of shares in relation to which they are authorised to act as your proxy (which, in aggregate, should not exceed the number of shares held by you). Please also indicate if the proxy instruction is one of multiple instructions being given. All forms must be signed and should be returned together in the same envelope.
- 2. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company specifies that to be entitled to attend and vote at the Meeting (and for the purpose of the determination by the Company of the number of votes they may cast), members must be entered on the Company's Register of Members at 6.00 p.m. on 1 September 2017. If the Meeting is adjourned then, to be so entitled, Members must be entered on the Company's Register of Members at the time which is 48 hours before the time fixed for the adjourned Meeting or, if the Company gives notice of the adjourned Meeting, at the time specified in that notice.
- As at 27 June 2017 (being the latest practicable date prior to the publication of the Notice) the Company's issued share capital was 33,724,958 Ordinary shares of 0.1p each, of which 12,389,689 are held in Treasury. As a result the total voting rights as at 27 June 2017 is 21,335,269.
- 4. The vote 'Withheld' is provided to enable you to abstain on any particular resolution. However, it should be noted that a 'Withheld' vote is not a vote in law and will not be counted in the calculation of the proportion of the votes 'For' and 'Against' a resolution.
- 5. The completion and return of this form will not preclude a member from attending the meeting and voting in person.
- 6. CREST members who wish to appoint a proxy or proxies through the CREST electronic proxy appointment service may do so for the Annual General Meeting to be held on 5 September 2017 and any adjournment(s) thereof by using the procedures described in the CREST Manual. CREST Personal Members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf.

In order for a proxy appointment or instruction made using the CREST service to be valid, the appropriate CREST message (a 'CREST Proxy Instruction') must be properly authenticated in accordance with CRESTCo's specifications and must contain the information required for such instructions, as described in the CREST Manual. The message, regardless of whether it constitutes the appointment of a proxy or an amendment to the instruction given to a previously appointed proxy must, in order to be valid, be transmitted so as to be received by the Company's agent ID (RA10) by the latest time(s) for receipt of proxy appointments specified in the notice of meeting. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied

to the message by the CREST Applications Host) from which the Company's agent is able to retrieve the message by enquiry to CREST in the manner prescribed by CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means.

CREST members and, where applicable, their CREST sponsors or voting service providers should note that CRESTCo does not make available special procedures in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of CREST Proxy Instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or sponsored member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s)) such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection, CREST members and, where applicable, their CREST sponsors or voting service providers are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.

The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.

- In order to facilitate voting by corporate representatives at the meeting, arrangements will be put in place at the Meeting so that (a) if a corporate shareholder has appointed the Chairman of the Meeting as its corporate representative with instructions to vote on a poll in accordance with the directions of all of the other corporate representatives for that shareholder at the Meeting, then on a poll those corporate representatives will give voting directions to the Chairman and the Chairman will vote (or withhold a vote) as corporate representative in accordance with those directions; and (b) if more than one corporate representative for the same corporate shareholder attends the Meeting but the corporate shareholder has not appointed the Chairman of the Meeting as its corporate representative, a designated corporate representative will be nominated, from those corporate representatives who attend, who will vote on a poll and the other corporate representatives will give voting directions to that designated corporate representative. Corporate shareholders are referred to the guidance issued by the Institute of Chartered Secretaries and Administrators on proxies and corporate representatives - www.icsa.org.uk - for further details of this procedure. The guidance includes a sample form of representation letter if the Chairman is being appointed as described in (a) above.
- 8. If you have disposed of your holding in the Company the report should be passed on to the person through whom the sale or transfer was effected for transmission to the purchaser or transferee.
- 9. Any person to whom this Notice is sent who is a person nominated under Section 146 of the Companies Act 2006 to enjoy information rights (a Nominated Person) may, under an agreement between him/her and the shareholder by whom he/she was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the meeting. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he/she may, under any such agreement, have a right to give instructions to the shareholder as to the exercise of voting rights.

Notes for the Annual General Meeting continued

- A copy of the Notice of Meeting and other information required by Section 311A of the Companies Act 2006, can be found at www.jupiteram.com/JGC.
- 11. Pursuant to Section 319A of the Companies Act 2006, the Company must cause to be answered at the AGM any question relating to the business being dealt with at the AGM which is put by a member attending the Meeting except in certain circumstances, including if it is undesirable in the interests of the Company or the good order of the Meeting or if it would involve the disclosure of confidential information.
- 12. Under Sections 338 and 338A of the 2006 Act, members meeting the threshold requirements in those sections have the right to require the Company: (i) to give, to members of the Company entitled to receive notice of the Meeting, notice of a resolution which those members intend to move (and which may properly be moved) at the Meeting; and/or (ii) to include in the business to be dealt with at the Meeting any matter (other than a proposed resolution) which may properly be included in the business at the Meeting. A resolution may properly be moved, or a matter properly included in the business unless: (a) (in the case of a resolution only) it would, if passed, be ineffective (whether by reason of any inconsistency with any enactment or the Company's constitution or otherwise); (b) it is defamatory of any person; or (c) it is frivolous or vexatious. A request made pursuant to this right may be in hard copy or electronic form, must identify the resolution of which notice is to be given or the matter to be included in the business, must be accompanied by a statement setting out the grounds for the request, must be authenticated by the person(s) making it and must be received by the Company not later than the date that is six clear weeks before the Meeting, and (in the case of a matter to be included in the business only) must be accompanied by a statement setting out the grounds for the request.
- 13. Under Section 527 of the Act, shareholders meeting the threshold requirement set out in that section have the right to require the Company to publish on a website a statement setting out any matter relating to: (i) the audit of the Company's Accounts (including the auditors' report and the conduct of the audit) that are to be laid before the meeting; or (ii) any circumstances connected with an auditor of the Company ceasing to hold office since the previous AGM at which the annual accounts and reports were laid in accordance with Section 437 of the Act. The Company may not require the shareholders requesting any such website publication to cover any costs incurred in complying with Section 527 or 528 and is required to forward any statement placed on a website to the Company's auditors not later than the time when it makes the statement on the website. The business which may be dealt with at the meeting includes any statements that the Company has been required under Section 527 of the Act to publish on a website.
- 14. Shareholders are advised that, unless otherwise stated, any telephone number, website and email address set out in this Notice of Meeting, Form of Proxy, or Annual Report should not be used for the purpose of serving information on the Company (including the service of documents or information relating to the proceedings at the Company's AGM).

- 1. Please indicate how you wish your votes to be cast on a poll in respect of the resolutions to be proposed at the said meeting. If you do not indicate how you wish your proxy to use your votes, the proxy will exercise his discretion both as to how he votes and as to whether or not he abstains from voting. Your proxy will have the authority to vote at his discretion on any amendment or other motion proposed at the meeting, including any motion to adjourn the meeting. To appoint more than one proxy you may photocopy this form. Please indicate the proxy holder's name and the number of shares in relation to which they are authorised to act as your proxy (which, in aggregate, should not exceed the number of shares held by you). Please also indicate if the proxy instruction is one of multiple instructions being given. All forms must be signed and should be returned together in the same envelope.
- 2. If you prefer to appoint some other person or persons as your proxy, strike out the words 'the Chairman of the Meeting, or' and insert in the blank space the name or names preferred and initial the alteration. A proxy need not be a member of the Company. Completion of a form of proxy will not preclude a member from attending and voting in person.
- 3. In the case of joint holders, the signature of the holder whose name stands first in the relevant register of members will suffice as the vote of such holder and shall be accepted to the exclusion of the votes of the other joint holders. The names of all joint holders should, however, be shown.
- 4. If a member is a corporation, this form must be executed either under its common seal or under the hand of an officer or agent duly authorised in writing. In the case of an individual the proxy must be signed by the appointer or his agent, duly authorised in writing.
- 5. This form of proxy has been sent to you by post. It may be returned by post to Capita Asset Services, PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF or courier or by hand to the Company's Registrars, Capita Asset Services, The Registry,34 Beckenham Road, Beckenham, Kent BR3 4TU. CREST members should use the CREST electronic proxy appointment service and refer to Note 6 in the Notes to the Notice of Meeting on page 49 in relation to the submission of a proxy appointment via CREST.
- 6. In each case the proxy appointment must be received not less than 48 hours before the time for the holding of the meeting or adjourned meeting together (except in the case of appointments made electronically) with any authority (or a notarially certified copy of such authority) under which it is signed.
